IJ A cough should never be neglected. It may appear trifling and unworthy the attention at first, but it will not remain stationary long: it may progress slow at first, and its augmentation may on scarcely percentible; yet when it once setzes the langs, all the other parts of the body will be sympathetically affected, and a confirmed Consumption and premature death will be the inevisable result. A little eare would save many a life, and he timely use of a proper remedy might have arrested many a consumption. But many persons have an invincible repuguance to taking any medicine, and rather than use the means towards arresting a disease, simply because the remedy may not be a pleasant one, would suffer and languish fer a long time, before they would resort to the aid of medicine.

B. A. Fathuestock & Co's Cough Balsam has a great advantage in this respect over many other Cough preparations, as its pleasant taste permits it to be used without inconvenience. But its value as a Balsam consistin the speediness of its cure. We have known some of the most desperate coughs, some of which had been running on for a considerable length of time; yield almost immediately to its power.
