a Prince, and successor to an Emperor. might Louis Napolean, the first President of the French republic, say, "but circumstances have made me a republican and a President." This would seem to be the best commentary, and the briefest, vehicles of every description, and for traders, travthat can be made on the present position of the French republic. The new President has been inaugerated, and his address will be found in our columns to-day. It seems fair and promising, modest

and very appropriate. He promises on oath, to the arrival of Mr. Clay in that city, the day previous, fulfil the pledges under which he was elected to having nearly if not quite recovered from the effects the Presidency by the French people, but the time and opportunity only can tell how far those engage-ments will be fulfilled. His ministery have also the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short time the host stormed at Days of the short stormed at Days of t the Presidency | made an exposition of their policy, and it corresponds with the views of Louis Napoleon himself. ome of the circumstances attending his inaugura-Some of the circumstances attenang ns inaugura-tion are quite theatrical, but in keeping with the taste of the French people. We allude principally to his offering his hand to Gen. Cavaignac, and the reciprocal compliments which passed between passengers among whom was Mr. Clay, were all sit-ting ar dinner. It happened that General Brooke taste of the French people. We allude principally to his offering his hand to Gen. Cavaignac, and the reciprocal compliments which passed between him and his defeated opponent. All the opposing parties seem to be hushed for the present; but there are symptoms of a formidable democratic oppo-sition to the new government. The opposition, however, is part and parcel of the action of repub-lican government. Its expression is found as well in the National Assembly, as in the journals of the day. With a free press, universal suffrage, an al-most equal division of property, and the absence feudal restrictions, we still think that the govern-ment of Louis Napoleon can, under no circum-stances, overthrow the French republic, or prevent the progress of democratic institutions in that country, or their influence over Europe. The rise in the funds, the general quiet in Paris and throughout the provinces, seem to strengther this view of the present position of France. The pros. eyes. "I congratulate you, General, on your election

MCUTCHEON, from Massachusetts, will deliver a course of Six Lectures to the citizens of Pittsurgh, Allegheny, &c., on Anaomy, Physiology, and Hygiene. The Lectures will be fully illustrated by the exhibition of two beautiful French Mankins, as models of the Human System, made of "papier mache," more perfect and larger (one being more than six feet high) than ever before exhibited "West of the Mountains." These models are universally admitted to be among the most perfect, complicated and ingenious pieces of work-manship ever constructed by man. They will be bril-liantly illuminated during the Lectures, and taken to pieces throughout, exhibiting the brain, spinal marrow; ungs, heart, arteries, veins, stomach, liver, kidneys, spleen, muscles, &c., giving their natural form, size, color and situation, as they appear in a state of health. Atso, some splendid models of many interesting por-tions, as the internal parts of the head, the face, eye, or-gans of voice, &c., many times larger than naturel. German Language.
