Gold Washers. H. PARRY has invented a machine for washing Gold, the for which he has made application for a patent. They are now offered for sale at the Warchoase of PARRY, SCOTT & Co., No. 103 Wood st., Titsburgh. Adventurers to California are invited to call and ex-mine these labor saving machines. They are simple in their, construction, easily transported on the back of males or horses, weighing eighty poan's each, and can be put in operation in half an hour. They can be filled with provisions. It is the opinion of those who have seen the trial of one of these machines of smallest size, that two men will wash the mineral from 150 bushels of sand or eardly wash the mineral from 150 bushels of sand or eardly in a day, without the loss of a particle of water or wet, and consequently without endangering their fields.
