Upwards of fifty housand dollars of our stock has been recently purchased, the greater portion of which are foreign Goods, received at New York by late European arrivals, which, from the hateness of the seuson, as well has the well known pressure in the money market, were sold at immense searcifices at the public sales, at rates varying from twenty-fiveto fifty per cent less than similar goods brought the first of the season. We therefore confidently believe that our prices for the lime above mentioned will be found to be even lower than any Eastern wholesale rates
