ID Despata Now though your physiciais and friends give you up to do?!! I air condition cannot be more hopeless than that of Mrs. Howe:

This is to certify that I was taken with a pain in my side and breast, sitenated with a distressing couch, and for the space of one year grow rapidly worke. Although I had in attendance three phyricians, one of whom was considered vory skilling, all of their efforts proved alike unavailing. At last one of the physicians came it, and eccided that I could not live more than one day longer! All of my friends believed that a fow days at most would end my earthly carrer!

My brother, at this coisis, hearing of the astonishing cures anade by Pr. Rogers! Liverwort and Tar, went to Chillicothe, distant thry miles, to procure the ulove medicine; and, strange to toil, before I had used half a bottle, my cough was onitrely cured, and when I had used two boilles I was able to attend to my family vocations as usual.

We, the undersigned, do certify that this account of Mrs. Rowe's is correct, we being personally acquainted with all the circumstances. P. P. Jounson,

Grant street.

It A cough should never he neglected. It may appear trifling and unworthy the attention at first, but it will not remain stationary long; it may progress slow at arst, and its augmentation may os scarcely perceptible yet when it once seizes the lungs, all the other parts of the body will be sympathetically affected, and a confirmed Consumption and premature death will be the ineviable result. A little care would save many a life, and he timely use of a proper remedy might have arrested many a consumption. But many persons have an invincible repagnance to taking any medicine, and rather than use the means towards arresting a disease, simply because the remedy may not be a pleasant one, would suffer and languish far a long time, before they would resort to the aid of medicine.

B. A. Fahnestock & Co.'s Cough Balsam has a great advantage in this respect over many other Cough preparations, as its pleasant terie permits if to be used without inconvenience. Batis wa.ne as a Balsam consistin the speediness of its cure. We have known some of the ICE ON THE LAKES.—The Toledo Blade says, the accumulation of ice in the Lake, and the various streams which empty into it is greater than it has been for many years. Navigation will not open until very late in the spring, unless we should be favored with a constant succession of easterly winds.
