Second street, between Wood and Smithfield.

On Taceday afternoon, July 25, 1845, the undersigned were called upon by Mosers, Lippeneout & Barr, to writness an honest and fair test of one of their Phurnix Safes. The fornace being prepared, the Safe was placed inside thereof, with books, papers and some money; when the door of the Safe was closed and the fire kindled at a quarter past 20 clock, and in a short time the Safe was red tot, and continued till half past 6 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was safficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our indement, entirely fire proof.
