N Tuerday afternoon, July 25, 1848, the undersigned were called upon by Messrs. Lippencott & Barr, to witness an honest and fair test of one of their Phonix Safes. The farmace being prepared, the Safe was placed inside thereof, with books, uppers and some money; when the door of the Safe was closed and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red to; and continued till half past 6 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was sufficient. The furnace was then palled dewn, Safe cooled, and door opened—the books, papers and money safe: The heat was so great as to melt off the brass mountings.
