Greenwood Gardens Hale's Patent Rotary Machine,

APPLICABLE TO THE USES OF

FORGING AND SUCTION FUMP, FIRE ENGINE,

Steam Engine, Venitator, and Water Wheel.

This remarkable Machine was invented by Klusha

II has been visited by thousands, and tried in many of its
applications, and its success has outstripped everything
in the history of useful inventions. The compact form of
the machine, its simplicity of construction and new of
the machine, its simplicity of construction and new of
pilication of established principles, render it an object of
admiration to all who see it.

As a common Fump, for the use of families, its portability and the facility with which it can be converted into a
fire Engine, are among its advantages. It is equally
useful for all purposes to which Pumps can be applied on
stamboats or vessels, to supply bollers, washing of decks,
pumping the holds, &c., &c., &c.

For Mines and Hydraulic Works of all kinds, it requires less power to do the same amount of work; and is
less liable to get out of repair than any pump ever before invented. Is throws a continuous stream of water,
without the use of an air chamber or any complicated
double acting apparatus.

As a Fire Engine, not once half the number of men are
required as upon the machines now in use, and they can Hale's Patent Rotary Machine, River Intelligence. Dry Goods. Bankers and Exchange Brokers Commercial and Financal. The Daily Morning Post. The Spring and Summer Stock of READY-MADE CLOTHING AT THE THREE BIG DOORS, WM. H. WILLIAMS,
