Miscellaneons. Tin Rooms. Tin Rooms. The subscribers most respectfully announce to their rangement to carry on the business of Tin Roofing on an extensive scale. It is now close on four years since we first introduced tin roofing in this city. During that time we have cover-ed over fifty thousand squary feet of roof with tin plate, and in all cases we believe we have given the most en-tire satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superbuildings on Penn-street, owned by John L. Sheenberger and John Bissel-Esqrs: That tin roofing (whin skillfully laid on) is both permanent and durable, there can be up doubt; in proof of this, we can refer to the almost universal, application of this kind of roofing in the large cities on the sea-board during the last twenty years and from enquiring on the subject, we have ye to leard of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the termination of all who take an interest in the matter. We have also prepared a miniatore plan of roofs, which may be seen at our estab-lishment, where any other information will be given with pleasure. JOHN DUNLAP & CO. The Argumenter. a. c.
