The anotorious fact that of all evils, none are held in such abhorrence as those of Rats, Mice, Roaches and Bed-Bugs, and to have then exterminated, is the wish and desire of all. A preparation has been discovered by which these who wish, may become rid of this evil, which it lests more or less every house in this city. This preparation has now been in use in Germany about seven years, (and in the United States for the last five.) and by every one who has given it a trial, been pronounced the best remedy they have ever used for exterminating Rats, Mice, Bed-Bugs, Roaches, &c.

The articles composing this composition are in themselves very innecent, and contain not a particle of poison; but when combined, creates a gas which explodes the stomach, and consequently destroys life in a few hours—as soon as it has affected the stomach the articles become neutralized, and will affect nothing thereafter; so that there can be no danger in its use, under any circumstances. This is no humbug. We will warrant it to rid houses of all the Rats, Mice, Boaches, &c., that inceats them. Should it not do as we say, the money will be refunded.
