CAROLINE VILLERE: THE ABDUCTOR'S FATE.

(CONTINUED.) "How! how!" eagerly exclaimed La Rond as he raised his head and fixed his eyes searching ly on his friends. "Tell me how," Simpson." "That I will," responded Simpson, as he stopped and whispered in La Ronde's ear.

BY MORTIMER.

"Yes, I can! Yes-yes!" replied our hero, as he listened to his friend. At last, striking his fist on the table, he exclaimed in a tone of thunder, "Yes! and I'll be d-d if I don't draw him up in that very way." Taking the writing affairs again, he struck off the following note:

"Six months after date, I promise to pay the bearer two hundred thousand dollars, without defalcation, for value received. October, -, 1814. HENBY LA RONDE."

This note he read in an exulting manner, supposing that it would put an end to the play at once. "Now," said he to Tarlton, "cover this, or hand over your dust." But, supposing I win, where will you get the money to redeem that note?" Tarlton cooly in-

"That is easily told," replied our hero. "Iex pect to marry a girl worth five hundred thousand dollars, in three months from this time; and I'll get it out of that pile."

"Ah! indeed !" replied his cool antagonist You are a lucky dog, to meet with such a girl as that. May I know her name?" "Certainly, sir, her name is Caroline Villere, at your service."

"Any relation to General Villere?" "Yes sir : his niece."

"Suppose I run you off, will you pledge your self to go the whole of that five hundred thousand, and redeem these papers ?" "Certainly I will, I will follow you to h-II

but I will beat you; now go on with your bet-"That's the way to talk; you're a man of the

right stripe; I like to play with such a fellowso here goes." And drawing a large red morocco pocket book out of his bosom, he began to count down one thousand dollar bills. It was not long until he had La Ronde's note covered and bettered. His funds appeared to be inexhaustible. La Ronde turned

pale at the sight, and the company was closely engaged observing the Mississippian. The intruder, to whom we have already referred, seen at a glance that these notes were counterfeited and spurious; and taking advantage of the moment, he slipped Henry La Ronde's papers from the table, and made his exit unnoticed. When Tarlton concluded his counting from the

first mentioned pocket book, he drew forth another. Henry La Ronde saw at once that if was useless to think of defeating him; so he cast his cards on the table, arose and muttered,-" It's d-d queer; but perhaps it's all right-I yield the game." Tarlton insisted on him redeeming his pledge, and -but he would not; and the game closed. Upon examination, it was found that La Ronde's papers were missing. Suspicion was at once fixed upon Henry by his antagonist; and drawing a pistol from his pocket, he cocked it, and presenting the muzzle to his head, demanded the immediate restoration of the papers-threatening to blow out his brains in case he refused. Henry stoutly

maintained that he was ignorant in regard to them -and Simpson taking hold of the pistol, removed the muzzle, saying that he would search for them. After a long and diligent, but fruitless search, they gave them up as lost. One of the party the State Convention, which assembles in this city called to his recollection the presence of the man wearing the Spanish cloak; and all agreed that he must have removed them. The thundering of heavy footfalls of the honest mechanic, as he wended his way to his workshop, told the gamblers that it was time to separate.

Two days after the above incident, a tall, slender and studious looking gentleman, might have been seen sitting in his office, which was situated on a main street in New Orleans. One side of his office was shelved; and on these shelves a fine collection of law books were arranged. tell' you, reader : Henry La Ronde had not been in the office for a fortnight. Mr. Livingston becoming alarmed at his prolonged absence, made enquiry of him; and was informed that his pupil was spending his time with a club of gamblers. This story, so ruinous to a subscription by the Town authorities. to his young friend's reputation, Mr. Livingston was lazy to credit. For the purpose of ascertaining the true cause of such gross neglect of duty on the part of his student, he repaired to his boarding house, and was there informed that La Ronde had just left for De Foe's. This intelligence satisfied him that Henry was engaged in gambling; for he knew De Foe's to be one of the most extensive gambling houses in the city. But to what extent his pupil was indulging in this vice he could not tell. Having engaged in the matter, Mr. Livineston, with his characteristic manner. Mr. Livingston, with his characteristic perseverance, determined to know all. For the more per-fect accomplishment of his design, he concluded to visit De Foe's: and having procured various to visit De Foe's; and, having procured various day. articles of disguise, and arranged his dress, he set

The Intelligencer Clique Triumphant. The Republic was established here under the countenance and patronage of Gen. Taylor himself, to sindicate such principles as he has, and to support his administration. Its proprietors, in consideration of the relation in which the paper stands to the General, and the services which it would render, expected to receive the content of the relation of the relation in which it would render, expected to receive the content of the relation of the eral, and the services which it would render, ex-pected to receive a good share of the patronage of the administration for themselves and friends, in adthe administration for themselves and triends, in advertising, offices, and emoluments. They expected that they should, of course, have their share of the offices to be bestowed in this District; and hence they put forward their candidate—Mr. Jacob Gideon,

nent speech, and suggested the propriety and expediency of the Town Corporation of Mansfield taking stock in said Rosds.

On motion of Jass Purdy, Esq., a committee of three consisting of Messrs. Purdy, Bhellenbarger and Stevens, was appointed to procure the signature of citizens to a request to the town authorities to order.

The Intelligencer's candidate was Wm. A Bradley, the sum of the Intelligencer triumphed, and the Republic was defeated. Again: we are informed that both the district attorney and marshall, Mossrs. can become a taw. The administration of justice is very perfect. No suit can be heard before a civil court until it has been heard before in a court of reconconciliation, where the judge attempts to reconcile the parties and adjust the difficulty, and he frequent ly succeeds. As the judges are made responsible for their decisions, they are very careful.

The only city worthy of notice in Sweden, is Stockholm, which is situated chiefly on islands on lake Malar, near its junction with the Baltic sea. It is the capital of the Kingdom, contains the royal palace and public buildings, and has a popula-tion of eighty thousand. The scenery around is very picturesque, and this city is the residence of the celebrated writer, Fredrika Bremer. Thefe is a great variety of dress in Sweden, bu in the large cities it is similar to our own. The Swedes have some peculiar customs, and many of them are beautiful. At a dinner where there are invited guests, as soon as it is over, they go into the parlor, where the lady of the house stands, and they kiss her band. The marriages are also curious; they take place in the church, and after the ceremony is over, the newly married couple are required to stand in the street for the people to look at, and to receive the congratulations of their friends. This is sometimes very fatiguing, and especially annoying to the bridegroom. In the large cities, where parties are wealthy, instead o

standing in the street, they throw open the house where every one is free to enter.—Dr. Bairde Lec. Office of the Alleghen's Bridge Co. \

To Brig. Gen. LARIMER, Col. TROVILLO, and others. 108 cases and 29 deaths to-day.

BRUTAL.—One of the most inhuman acts of brutal_ ity we have heard for a long time, was related to us yesterday. A man, residing in Westmoreland county, who had been down the river, took passage on the Philadelphia packet for Freeport on Thursday night last. Before reaching Freeport he had a slight attack of Cholera, and the Captain of the packet becoming alarmed, immediately landed him on the towing path. The poor fellow managed to crawl to Freeport and gain admittance into a Tavern close Out of 177 deaths; 145 were German and Itish Em by the Lock, but as soon as the landlord learned what was the matter with him, he shoved him, dybeen made, that these countries are rising from ling, into the streets, where he was permitted to lay for some time, suffering all the agonies of the last

House, having more of the 's milk of human kindness" in his breast than any of the other inhabitants of that village, had the man conveyed into his house where every attention was paid to him, but he died a short time after. The humane canal boat captain, and the hospitable landlord who drove the dying man

he Allegheny House, he asked permission from anentirely in their place of abode. A large body of ken of him, but he utterly refused him, and sent the poor man out in the streets to die. We would say to the traveling public, beware of these humane andlords.

We are informed that an address will be delivered on the grounds at 11 o'clock, A. M., by P. C. Shannon, Esq. This alone will be an inducement to all who are acquainted with the oratorical powers of this gentleman to pay a visit to the fair.

MESS No. 36.-We were yesterday favored with the perusal of a letter from Mr. J. D. Gallagher, of Mess No. 36, of the Pittsburgh Enterprise Company now on their way to California. The letter is lated three hundred miles on the plains, May 29, and says that the Company are all well, but sick of the California trip. ARRIVED .- los. F. Ley, Esq., the able and ta-
