## CAROLINE VILLERE THE ABDUCTOR'S FATE. BY MORTIMER. (CONTINUED.)

Caroline Villere was very much dejected in con sequence of her lover's treatment and conduct. Henry, thinking that he had all in his power, and under his control, room gave over his complaisant language and, conduct. He was frequently quite insolant, especially when he was drinking to excass, which was now his daily habit. He urged upon Caroline their immediate marriage, and de spite her remonstrances, fixed a day.

"But, Henry," reasoned the afflicted Caroline If I were ever so anxious for our marriage in this place, which you know I am not, how can it be performed ? there is no priest here." "Oh! d-n your priests. What's the use our being bothered with their ceremonies-the don't make the matter a bit more binding." "But, Henry, I will not agree to any other form

I'll bring him in five days from this time-and in five nights from this time we'll be married in spite of h-!!," said thedrunk en lover, as he staggered from the room. "Oh! that I was away from this place—th accursed place !" signed the dejected Caroline when alone. "Oh! that I was dead, and laid be side my dear father and mother. Can they see me in this forsaken place? Can they behold from their bright abode their afflicted daughter ?" Presently, her tormentor returned, having emp-

tied another bottle of wine. "Well my lovely Cal, it's a pity you don't like wine; we have some first rate wine here," was his address to the sobbing girl, as he dropped on a chair at her side, and attempted to put his arm around her waist. "Oh! for God's sake have a little mercy on me, Henry," screamed Caroline: " and don't drive me

"It's no use my pet, to put on such airs," plied the inebriate; "for you are mine, and you shall be mine in every sense of the word in five days. I'll have the d-d old hypocrite here with his gown and book, and it'll come out square. You see, Cal, I have paid too dear for you, to be deprived of your enjoyment." What do you mean, sir, exclaimed the insu language needs explanation, sir."
