ortwithstanding the fineness of the weather and the generally favorable reports respecting the growing crops. It would, therefore, appear that the prospect of future abandance will scarcely counteract the ef-fect of present scarcity; and during the time which must yet elapse bofore the harvest can possibly be ready for gathering, prices may be expected to be at lenst supported if they do not avance. Miny parties, usually well informed, are sanguine of a further improvement, and that such would take place in case anything should unfortunately hereaf-ter occur of a character to cause uneasiness in recient, and should not be held responsible for the conduct of a few individuals who have crept among them. If we mistake not, those individuals who are the first to brand the firemen as rowdies, ruffians and cut throats, would be the last to leave their warm.
