The Prospects of the Democracy.

Within the last week, we have had the pleasur

The load crackling of the consuming fire, the fail of a building, of the savage cry of some Asiatic sentifiel. The flames rose high from tower and grove, lighting up the destruction they were ma-king; they darted in broad red masses across the channel that divides the island from the main, and reflected on the black sides and lofty summit of Cape Rashburno'. Then'I saw consumity the beautiful, city, the fairest, the politics! of all the Leyant, where, at different periods of my. life; I had passed many a huppy day; then I saw the inverse of the destructive element among those lovely gardens, the offours of whose fruit trees had so often saluted me across the calm waves, charmed me, and given mo the pleasant assurance that I was approaching home. Many and many a alar basiness will be suspended throughout the coan. which need no further comment : that I was approaching home. Many and many a time, as I have been sailing out of the bay of Smyrns, have I scented, at the distance of miles, try. There will be divine service in most of the trys. There will be divine service in most of the Churches at the usual hours. In order that those who are employed in this office may have an opport the sweet blossoms of the orange tree, the citron, and the elmond, that were prodigal of beauty and wealth to the dwellers in the happy island of Scio. What had the marble halls and inoffensive plants who are employed in this office may have an opportunity of participating in the exercises of the day,

dong that they should thus be destroyed ? One would have thought that the love of possession would have saved them, and that the Turks, con The Steamer Cambria is now due, and will pro. bably arrive at Boston to-day. We have made artenting, themselves, with wrenching them from those who had planted and built them, would have angements to issue an Extra Post, containing a full staid the hand of injury, and kept them for their own use and enjoyment. But it is part of their brutal character to delight in destruction; persynopsis of her news, the moment it is telegraphed o the city.

baps they are anxious to efface works they, them selves know not how to imitate; they may have considered the symmetric; elegant, comfortable edifides, a reproach to their own' paitry, constructions of lath and morter: perhaps-but why specu-late on the motives of their barbarity ?---the fact 18---And, alas! how, offen has, it been proved of te years the Turk ever finishes with fire what he has begun with the sword, and so soon as he Platform of the Democratic State Convention has pillsged the money and jewels, and secure such women as may have charms for his brutal luste, or who he imagines will sell well, he hastens to render the scene of his triomph a heap of desolate ruins. To do this in Scio required hard work, and the perverse industry which the Turks displayed to accomplish, their purpose was truly ing. The houses, being well built of hard | They "cannot serve God and Mammon." They stone, and marble, with scarcely any wood in them | labor for the Federalists, and must be supported but the doors and window frames, were very diffi-cult to burn; they had the barbarous constancy of
