He is constantly proving and beautifying his property. If we had a few more such men in Pittsburgh, instead of the narrow-minded, selfish old Hunkers who monopolise so much of the real Estate, the miserable shanties that are now found on many of our finest streets would have to give place to fine buildings which would be an honor and an ornament to our city. lectual developements of man, we find all men of a MURDOCH, sound heads and good hearts along with us.

An Aftermoon in the Country.

Among the many beautiful spots around Pittsburgh there is none more romustic than the country seat of our friend Dr. Edward D. Garzam, at the "Collogy" settlement, about mile from the Court House.

On Saturday afternoon we had the pleasure of the ing a ramble over this truly lovely enclosure; and it was surely a treat not often enjoyed by the Editor of a daily newspaper, whose lot it is to toil forever like Ision at the wheel. The day was delightful as an "Indian Sammer" day could be. The atmosphere was balmy as the breath of the sweet South-west that comes sweeping over a bed of violeta. vards are be inning to be felt in their moral as well as numerical force. A considerable portion of citiens assemble every Friday evening in their Public school House, in the Sixth ward, to discuss the uestions of the day, and to aid in increasing and diffusing knowledge. We are told that Mr. Branen, a hard working mechanic of the city, delivered on ast Priday evening a lecture upon galvanism and hemistry, that would have done credit to Professor Stephens, though the lecturer had never been six months at school in his life. He is an humble devotee of Science, who loves her for herself alone. le singerely regret that there was no public annuaciation of the proceedings of the evening, in order hat our workingmen would have attended, to have eard from a brother the proofs that all knowledge a not to be obtained only within college walls.

Accident.-On Saturday, a bricklayer named James Rea, who lives in Allegheny, fell from the third story of a new building in the First ward, upon when we last heard from Mr. Rea, he was not expected to live. He is a varied seed of the control pected to live. He is a young man of excellent character, and has only been married a short time. The accident was caused by the breaking down of he scaffold.

There were not less than two thousand people the canal bridge yesterday, listening to the Street reachers. A vast majority were thoughtless perf witnessing a row, while, doubtless, a few attendd in the full belief that they were doing God a service. We heard of no disturbance there.
At the month of Wood street, the "Prophet" held forth as usual. Some foolish persons, we understand, undertook to dispute with him, for which discretion they were chased into the river.

QUARTER SESSIONS, OVER AND TERMINER, &c.-Sefore Judges Patton, Jones and Kerr, Nov. 3. The Jury in the case of Michaels, brought in a rerdict of acquittal as to the "Robbery," and Guilty "Assault and Battery." The remainder of the day was occupied in heari

"To Let."—In a walk through the city on Saturday we noticed an unusual number of houses with curtous upon them. We can only account for this by adding the fact that Landlord's hold their dwelling's particularly the cheap sort, at such high rates, that all who can are building for themselves.

Another Outrage.—On Saturday a man was knoked down in the street by a drayman, and when
