PITTREBURGH, June 12, 1849.

Mr. T. K. Hibbert—Dear Sir: In reply to your request to have my opinion relative to the quality of your Writing Fluid, I may state that I have used it in my Institute of Accountants for nearly a year; where I use note but the best of Inks. It becomes a perfect black soon after being written with, and is suitable for any kind of pen, but more particularly the metallic pen, which does not clog with it as with common ink. It writes well upon any kind of paper, and on account of its fluid property writes better on parchment than any of the common inks. I perceive what you have made recently is darker in color when first written with. This is a decided improvement, particularly for book-keepers, who have frequently to write with candle light. Your Red Ink is decidedly the best of that kind of domestic manufacture that I have tried;—it will be found on trial in every respect equal to Arnold's best English manufacture. Your Machine Copy link leaves a good impression, and will be found worthy of a trial; but I cannot myself speak so confidently of its properties as the others, not having had the same experience in the use of it.

Very respectfully yours,
