Mr. T. K. Hübert—Dear Sir: In reply to your request to have my opinion relative to the quality of your Writing Fluid, I may state that I have used it in my Insuinte of Accountants for nearly a year; where I me none but the best of Inks. The becomes a perfect black soon after being written with, and is suitable for any kind of pen, but more particularly the metallic pen, which does not cloy with it as with common ink. It writes well upon any kind of paper, and on account of its fluid property writes beiter on parchment than any of the common inks. I perceive what you have made recently is darker in color when first written with. This is a decided improvement, particularly for book-keepers, who have frequently to write with candle light. Your Red Ink is decidedly the best of that kind of comestic manufacture that I have tried j-it will be found on trial in every respect equal to Arnold's best English manufacture. Your Machine Copy ink leaves a good impression, and willbe found worthy of a trial; but I cannot myself speak so confidently of its properties as the others, not having had the same experience in the ase of it.

Yery respectfully yours,
