Miscellaneous.

THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on the extensive scale.

Having now on hand upwards of one thousand square feet of roofs with tin plate, and in all cases we believe we have given the most perfect satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt in proof of this. And for coating in the large cities on the sea-board during the last twenty years; and from enquiring on the subject we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter, and we have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure.
