THE ROGGEN MEETING. If it were possible for us to find room, we would certainly publish the proceedings of the changes flowing from a lawless industrialism, "Roggen Meeting," on Thursday evening, as re- which is the leading feature of our present civiliported in the Gazette, one of the Whig organs of this city. We wish every voter of Pittsburgh could read the report alluded to, (and we are told it is characterized by the division, but not the harit is a very correct one,) for then the necessity o electing a good man, like JOHN B. GUTHBIE,

Mayor of the City; would be made apparent .---Every argument used by the speakers clearly establisties the fact that of all the candidates now before the People, Mr. GUTHELE is the only man who will be able to redeem the character of our City at home and abroad. This is a matter of more importance than the election of a Whig or a Democrat. During the last twelve months the

curse of Barkerism has disgraced Pittsburgh in the eyes of the whole country. Good men of all parties will now unite in effecting a reform. Hundreds of staunch Whigs who are determined to have a respectable, intelligent, sober man for Mayor, will break through the shackles of party, and vote for JOHN B. GUTHBIE. All honor to these good citizens. We feel confident they will never regret their course in this respect.

Noblestown Plank Road. We publish below the proceedings of a meeting held on the 1st inst., to further the project of the human industry, viz., Agriculture, Manufactures contemplated Plank Road from Temperanceville to Noblestown. It will be seen that the very best feeling prevails amongst the farmers along the line of the proposed Road. We consider this Road in some one of these departments. No man can equal in importance to any other which will con- be fully educated or developed unless he works to some extent in several of them; and no communect with Pittsburgh, and we therefore sincerely hope that all who are interested in its construction nity performs its office of affording means to the will go to work in earnest, so that it may be comconverges upon each one, as far as he can receive pleted without delay.

Graham's Magazine for Ja THE BURIAL OF LOVE. BY WILLIAM CULLEN BEYANT.

Two dark-haired maids, at shut of day, Sat, where a river rolled awoy, With calm sad brows and raven hair, And one was pale, and both were fair.

Bring flowers, they sang, bring flowers unbloy Bring forest blooms of name unknown, Bring building sprays from wood and wild, To strew the bier and Love the Child.

Close sofily, fondly, while ye weep, His eyes, that death may seem like sleep, And lay his hands, in sign of rest, His waxen hands, across als breast.

And makes his grave where violets hide. Where alth: flowers strew the rivulet's side. And blue birds in the mists of spring, Of cloudless skies and summer sing.

Place near him, as ye lay him low, His idle shafts, his loosened bow, The silken band that oft around His waggish eyes in mirth he wound. But we shall mourn him long, and miss His ready smile, his ready kiss, The patter of his little feet, Sweet frowns and stammered phrases sweet.

And graver looks serene and high, A light of heaven in that young eye; All these shall hauni us, till the heart Shall ache—and ache—and tears shall start.

The bow, the band, shall fall to dust, The shlaing arrows waste with rust, But he whom now, from sight of men, We hide in earth, shall live again.

NAVIGATION.—During the past week the running ice has entirely disappeared from the river opposite the city; and we hear that the navigation is clear; up the Mississippi as far as Keekuk; at the lower rap-ids. The Illinois is said to be open to Peoria, but few boats are willing to venture into it. The Min-souri river is closed by ice and low water. From this to Cairo the water is so low as to provent any steamers, but those of the very lightest class, from carrying freight. Boats coming up report about six feet. A few cold days in its present shallow condition would certainly close it up by ice effectually.—St. Lowis Union, Dec. 24. 117 The jury in the case of Griffith, tried in Harford County Court, for being an accomplice, of John W. Mr. Kier.—Sir, I cheerfully comply with your re-quest, that I would give you an account of the almost miraculous cure of my little duughter's cyc, by the use of your "PETROLEUM."
She was attacked with a very sore eye, in February or March tast, when I immediately applied to the best me-dical aid in the city, by whom it was pronounced "a very badleye," and all gave me no hope of doing her any good. After which I took her into the acountry to an oid haly, who had beeu very successful in caring eyes. She told me that her case was hopeless, as she would certainly lose not only that one, but, also, that the other would follow—It being a scroftlous affection of the blood. And I do certify, that at the time my father (J. B. Vashon,) came to the conclusion that we had bet-ter try your "Petroleum." She usa continue the det we can now see with both eyes as good as he ever did; and, as far as I can tell, I believe she hes, with the blessing of the Aimighty, been cured by "Petroleum." Yours, respectfully. M. Frances Vasuor Contral. day, the lat day of February, A. D. 1851, for the puposes of my appointment. jadituditw J. F. BRADY, Auditor.
