HARRISBURGH, PA.

The very liberal patronage extended to this Company, having issued policies to the amount of near One and a Haif Million of Dollars, during the last three months, is sufficient manifestation of the estimation and confidence of the public in the system of management of which its business is conducted.

To city or country merchants, and owners of dwellings, and isolated or country property, it is believed this company affords advantages in point of cheapness, safety and security, inferior to no Insurance Company in this country.

Conducted on the equitable and greatly improved system of Classification of Risks, excluding all special hazards, insuring only a limited amount in any one locality, thus precluding the frequency and occurreace of large fires, and also, on both the Stock and Mutual plan, it not only possesses the cheapness and accommodation of obth methods, but entitles the insured to a participation in the profits.

It is under the control of the following Directors:—J. P. Rutherford, A. J. Gillstt, John B. Packer, Samuel T. Jones, Alonzo A. Carrier, Philo C. Sedswick, Robert Klotz.

A. J. Gillstt, Secty.

Dr. Grantan, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, mecrated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion. From recent experiments we know that food is dissolved as repidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Julie itself."

Frofessor Dunolisos, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Julie, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Rev. Dr. Killikelly's Female Seminary

KITT ANNING, PA.

THE PALL SESSION of this Institution will commence on Wednesday, October 30, 1850. For Terms, &c., please see Circulars at Mr. Mellor's, 81 Wood street, and Mr. George R. White's, Market street.

In addition to the thorough system of instruction pursued by the Principal, as vouched for by Gov. Johnston and Bishops Upfold and Potter, the Seminary presents considerations which may be deemed of some moment, in the limited number of its boarding Pupils, (25.); its retired situation, and expectally, its not being contiguous to any College or School for boys.

Dr. Killikelly may be found at the Monongahela House for a few days, and will be happy to wait on those desiring to see him in reference to the school.
