Whilst the regular meeting of the Committee on the 20th of November last, came together in pursuance of a call explicit as to its object, the call for the irregular meeting of the 30th of December, con ecaled its purpose. If the question of a separate. convention and the time and place of its meeting be

of any importance to the Democratic party, why was the object of the irregular meeting withheld 7 What benefit can possibly accrue by merely changing time and place, that is commensurate with the risk incurred in attempting to effect that chaoge, is an inquiry of far more importance.

To concede to this irregular meeting the power t annul the legitimate action of the Central Committee would be to declare that seven of its members in any part of the State, coming voluntarily together, should bind the party by their determinations. Such a doctrine would be subversive of the objects for which the Committee was raised, and lead to confu-

sion and defeat. Viewing the proceedings of the irregular meeting of the 30th of December, in the light I have indicated, and holding the regular meeting of the 20th of November to have definitively settled both the time and place of the meeting of the convention to put in omination candidates for the Supreme Court of the ville Railroad Company. EVIDENCE IN OUR MIDST. Mr. Risr.-Sir, I cheerfully comply with your re-quest, that I would give you an account of the almos-miraculous cure of my little daughter's eye, by the use of your 'PETROLEUM." She was attacked with a very sore eye, in February on March last, when I immediately applied to the best me-dical aid in the city, by whom it was pronounced ifs very bad eye," and all gave me no hope of doing 405 nny good. After which I took her into the country fu an old lady, who had been very successful in earing eyes. Sue told me that hor case was hopeless, fas, she would certainly lose not only that one, but, also, than the other would follow—it being a scrolalous affection of the blood. And I do certify, that at the time my father (J. B. Vashon,) came to the conclusion that we had bet: tor try your 'Petroleum," she was entirely blind of one rgs. It is now ubcut two months since she began its use and she can now so with both eyes as good as he evend did; and, as far as I can tell, I believe sine has, with the blessing of the Almighty, been cured by 'Petroleum."
