Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fiuld the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestion of them. Steamboats, Ahoy! Steamboats, Ahoy!

Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Phila, 1840, pp 32f-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice tiself."

Professor Dunalison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "There are more things in heaven and earth Than are dreamt of in philosophy."

THE VIRTUES of this remarkable remedy, and the Constant application for it, to the proprietor, has induced him to have it put up in bottles, with labels and directions, for the benefit of the public.

The PETROLEUM or ROCK Oll is procured from a well in this County, at a depth of four hundred feet, is a pure unadulterated article, without any chemical change, but just as it flows from Nature's Great Laboratory! That it contains properties capable of reaching a number of diseases, is no longer a matter of uncertsiny. There are many things in the arcana of nature, which, if known, might be of wast ascefainess in alleviating suffering and restoring the bloom of health and vigor to many a saferer. Long before the proprietor thought of wastering and restoring the bloom of health and vigor to many a saferer. Long before the proprietor thought of a save indication of its future popularity and wide spread application and ecure of disease.

The constantly and daily increasing calls for it, and several remarkable cures it has performed, is a sure indication of its future popularity and wide spread application of the future popularity and wide spread application of the cure of disease.

We do not wish to make a long parade of certificates, as we are conscious that the medicine can soon work its way into the favor of those who suffer and wish to be healed. Whilst we do not claim for its unitvorsal application in every disease, we unhealtainingly say, that in a number of Chronic Diseases it is cantwalled.
