THIS MEDICINE has an action in affections of the Pulmonary diseases entirely different from any of the Expectorant and Cough Remedies now in use. It is one of the most placedy, as well as the most pleasant, medicines now in use. It is one of the most placedy, as well as the most pleasant, medicines now in use. It does not open the pores and expose to a grarm cold. One or two doses frequently aliays all tritiation and tickling sensation produced by a harassing cough. Singers, public speakers, and those who are required to use the vocal organs to a great extent, will find in this Pectoral Syrup a sure and instant remedy for hearseness and laryngeal fritiation. It clears the throat perfectly of all collections of mucous, and gives tone and clearness to the voice.

SYMPTOMIS—The symptoms which usually usher in a Cough or Cold may be enumerated as follows: This disease in the books is calle catarri, and is preceded by an increased discharge from the nose, fances and bronchis; there is a feeling of hesitude over the whole body, and very often cold shiverings are felt; at least the body is more than usually sensitive to the action of the air: the pulse increases in frequency, and there is generally more or less fever. These symptomase soon followed with hoarseness and a sense of roughness and sorners. In the windpipe and vocal organs, together with a difficulty of breathing and a sense of constriction of the chest. There is also attending a dull pain and sense of weight in the forehead, as well as a heaviness in moving the eyes. These feelings, sometimes at the very beginning of the disease, and always soon afterview are attended with a distillation from the nose and sometimes from the eyes, of a thin acid fluid, which frets and irritates the parts over which it passes. The cough is at first usually dry; but as the disease progresses there is an a feet of the passes of the cough THE Proprietor of the Mornine Post and Mercurat

MY stock of Fell and Winter-Clothing is now ready,
M amounting to upwards of 5100,000, which I think
will be found to by one of the choicest selections of garments ever got up in this or any other city in the Western country.

My purchases having been all made early, I have,
therefore avoided the late advances made in almost all
descriptions of Woollen. Goods, and am therefore enabled to offer my stock at unusually low prices.

I have this ecason paid more than usual attention to
the manufacturing and style of my garments, so that the
very lowest priced as well as the finest are you up in a
sayle and elegance not to be surpassed. Hundreds of
new customers, both wholesale and retail, have been
attracted as much by the soperior, make of the clothing
as by the lowness of my prices.

The proprietor would particularly call the attention of
all dealers in Clothing to his present stock, believing
that upon examination of the quality and prices of his
Goods they will be induced to purchase at his establishment. The wholesale room naw contains upwards of,
7,000 garments, from the finest in quality to the lowers in
price.

The proprietor is now determined to make this desarts. becomes thicker and more copious, and having some appearance of pus-These are the leading symptoms of what is termed "a cold," which, if neglected, are likely to result in irreparable injury to the Lungs, and Consumption.

MEMPHIS INSTITUTE. SEVENTH GREAT SEMI-ANNUAL SALE OF Dr. Conner, in his valuable writings on the "Physiology of Digestion," observes that "a dimination of the due quantity of the Gastric Jnice: a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything clase to fail, had recourse to the Gastric Jairce, obtained from the stomach of tiring animals, which proved completely successful."

Dr. Gastian, author of the famous works on "Vegetable Diety says: "It is a remarkable fact in physiology, that the stomachs of animals, macersated in water, impart to the fluid the property of disolving various articles of food, and of effecting a kind of artificial digastion of them in no wise different from the natural digestive process." ared to lurnish, on the most reasonable terms, ever prior of Cabin Formiture and Chairs of the taterial and workmanship. Dr. Show's great work, the "Chemistry of Man," (Lea & Hinnebard, Phila, 1846, pp 321-2) says: "The discovery of PEPSIN forms a new era in the chemical instorp of Digestion. From recent esperiments we know that food is discolved as rapidly in an artificial digestive fluid, prepared from Peptih, as it is in the natural Gastrio Juice itself."

Professer Dunctaos, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gustric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digeation occurred as perfectly in the artificial as in the natural digestions."

AS A DYSPEPSIA CURER,

Dr. Horouttox's preparation of PEPSIN has produced the most marvelons effects, curing cases of bebility, Emaciation, Nervous becline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. Those who will contemplate our geographical position, and the extent of our population, can have no doubtas to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that any other city has unow.

The first class of the Law and Medical Departments o. this institute were small, but the gentlemen composing them are taleuted and in the highest degree respectable—a favorableomer for the finiture prosperity of the Institute. That the public may be satished of the permanency of this school, we teel it our duty to state, that the Trustees and Faculty form a wait in action, which awajirs well for its fature success; and that the peculiar internal organization which connects them, cannot be interpred.
