My purchases having been all made early, I have therefore avoided the late advances made in almost all descriptions of Woollen Goods, and am therefore enabled to offer my stock at a usually low prices.

I have this season paid more than usual attention to the manufacturing and style of my garments, so that the very lowest priced as well as the finestere got up in a style and elegance not to be surpassed. Hundreds of new customers, both wholessic and retail, have been attracted as much by the superior make of the clothing as by the lowness of my prices.

The proprietor would particularly call the attention of all dealers in Clothing to his present stock, believing that upon examination of the quality and prices of his Goods they will be induced to purchase at his establishment. The wholesale room now contains upwards of 2,000 garments, from the finest in quality to the lowest in price. For proof of the above read the following certificates:

DR. KEYER:—We take pleasure in certifying, for the benefit of other sufferers, to the efficacy of your PEC-TORAL COUGH SYRUP; in our case. During the use of two bottles purchased of you we were cured of a hoatseness amounting to an entire loss of voice; and effectually relieved of a severe cough, which threatened permanent injury to the lungs.

It began with a feeling of tallness in the head; increased secretion and suffusion of tears; together with hoarseness, pain in the breast, and the other accompaniments of what has been denominated "Tyler Grippe." I took two bottles of your Pectoral Syrup, according to the directions on the bottle; and I am now, and have been ever since, entirely free from any of the unpleasant symptoms enumerated above. You have my permission to publish this for the good of your sales, as well as the Public, if you desire to do so. Very respectfully, yours, &c.

From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumoni, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases." he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

The Faculties, for intellectual abilities, moral worth
and professional acquirements, will compare favorably
with the most distinguished in our country. The Medical
Faculty constitutes an anomaly in this or any other
country—all of them are able Lecturers and the best of
Teachers.

Those who will contemplate our geographical position,
and the extent of our population, can have no doubt as to
the eligibility of our situation for an enterprise of the
kind. As to health, including all seasons of the year, we
deny that any sther tily has more.

The first class of the Law and Medical Departments on
his Institute were small, but the gentlemen composing
them are talented and in the highest degree respectable—
a favorable omen for the future prosperity of the Institute

That the public may be satisfied of the permanency of
this school, we teel it our duty to state, that the Trustees
and Faculty form a unit in action, which argurs well for
its future success; and that the peculiar internal organization which connects them, cannot be interpred.

Philosophy of Brandreth's Vegetable

WHEN the theory of the circulation of the blood was established, the secret springs of vitality were then partially exposed to our view. We saw and understood that the food we cat, was converted into blood, which repaired the waste of the animal machine; the food is fuel, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is an electric fluid which carries this heat to every ramification of the body, even to the extremities of the hair and horny nall. While the blood is thus the sent of life, it is also the scat of discase. Food gives the body strength; Brandreth's pills give blood the necessary power to throw out from itself all impurities, thus rendering the stream of life pure and healthy. If men were more sincere, there would be fewer religious creeds, and if they kept close to acture's laws in the management of their bodies, they would require little medicine. As men grow intellitigent they will become wiser and happier; even now, their wisdom is proved by the fact that when sickness assails them, they use Brandreth's Vegenble Universal Pills, which soon restore them to health. They are peculiarly adapted to the climate, and require noextra care when they are used, in either diet or clothing. They should be always in the house, so that upon the first indication of sickness they may be used. One does in the beginning is more potent for good, than a dozen after the sickness is fixed in the system. In colds, coughs, ashma, rheumatism, costiveness, fovers, and in all acute, lieavy or deep-scated palns, their effects will Company. [ap3], WM. P. JONES, Agent.
