TAS TAKEN INSURANCE ON HIS LIFE FOR TAKEN INSURANCE ON HIS LIFE FOR Tance Company, of Hutford, Connection:

The following are the Joint Stock: rates of Premium of other Life insurance Companies compared with the rates of Hartford Life and Health Insurance Company.

Annual Payment for Policy of one thousand dollars. will be found to by one of the choicest scientions of garments ever got up in this or any other city in the Western country.

My purchases having been all made early, I have therefore avoided the late advances made in almost all descriptions of Woollen Goods, and am therefore enabled to offer my stock at unusually low prices.

I have this season puld more than usual attention to the manufacturing and styles off my garments, so that the very lowest priced as well as the finest are got up in a style and elegance not to be surpassed. Hundreds of new customers, both wholesale and retail, have been attracted as much by the superior make of the clothing, as by the lowness of my prices.

The proprietor would particularly call the attention of all dealers in Clothing to his present stock, believing that upon examination of the quality and prices of his Goods they will be induced to purchase at his establishment: The wholesale room now contains upwards of 2,000 garments, from the finest in quality to the lowestin price. DR. KEYSER :—We take pleasure in certifying, for the benefit of other sufferers, to the efficacy of your PEC-TORAL COUGH SYRILP, in our case. During the use of two bottles purchased of you we were cured of a hoarseness amounting to an entire loss of voice; and effectually relieved of a severe cough, which threatened, permanent injury to the lungs.

Dr. Keyser - You have asked me the effects of your Pectoral Syrup in my own case. I had a very bad cough during part of last winter. It began with a feeling of fullness in the head; increased secretion and suffaction of tears; logether with boarseness, pain in the breast, and the other accompaniments of what has been denominated "Tyler Orlppe." I took two bottles of your Pectoral Syrup, according to the directions on the bottle; and I am now, and have been over since, entirely free from any of the unpleasmt symptoms enumerated above. You have my permission to publish this for the good of your sales, as well as the Pablic, if you desire to do so. Very respectfully, yours, &c.

Dr. Comme, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due gy of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and fill-prevailing cause of Dyspepaia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. GSAHAM, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology; that the stomachs of animals, macerated in water, unpart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the numeral digestive process." Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Philan, 1846, pp. 281-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is discolved as rapidly in no artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastic Juice itself."

Professor Dunglason, of the Jeferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaamont, on the Gastic Juice, Distined from the living human stomach and from animals, are well known. "In all cases." he ways, "digestion occurred as perfectly in the artificial as in the natural digestions."

The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare favorably with the most distinguished in our country. The Medical Faculty constitutes an anomaly in this or any other country—all of them are able Lecturers and the best of Teachers.
Those who will contemplate our geographical position, and the extent of our population, can have no doubtas to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that any other city has more.
The first class of the Law and Medical Departments on this Institute were small, but the gentlemen composing them are taleated and in the highest degree respectable—a favorable omen for the future property of this finaltitute. That the public may be satisfied of the permanency of this school, we teel it our duty to state, that the Trusteer and Faculty form a wait in action, which augurs well for its future success; and that the peculiar internal organization which connects them, cannot be interrupted.

Philosophy of Brandreth's Vegetable

WHEN the theory of the circulation of the blood was established, the scoret springs of vitality were then partially exposed to our view. We saw and understood that the food we eat, was converted into blood, which repaired the waste of the animal machine; the food is fuel, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is an electric finid which carries this heat to every ramification of the body, even to the extremities of the hair and horny nail. While the blood is thus the sent of life, it is also the sent of disease. Food gives the body strength; Brandreth's pills give blood the necessary power to throw out from itself all imparities, thus rendering the stream of life pure and healthy. If man were more sincere, there would be fewer religious creeds; and if they kept close to nature's laws in the management of their bodies, they would require little medicine. As ment grow intellitigent they will become wiser and happier; even now, their wisdom is proved by the fact that, when sickness usualis them, they use Brandreth's Vegetable Universal Pills, which soon restore them to health. They are peculiarly adapted to the climate; and require no extra care when they are used, in either diet or clothing. They should be always in the bouse, so that upon the first indication of sickness they may be used. One dose in the beginning is more potent for good, than a dozen after the sickness is fixed in the system. In colds, coughs, asthma, theumatism, costiveness, fevers, and in all acute, heavy or deep-seated pains, their effects will be found beyond all praise. Three or five will act like a charm, often ouring a dangerous malay at once, saving months of sickness and the evils thereunto attending. Remember, Brandreth's like are a known and fully tested medicine, one that is used by hundreds of thousands in this country and throughout t Fresh Arrival-New Goods!
