Dr. GRANAM, author of the famous works on "Vegeta-ble Diet,"says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, im-part to the fluid the property of dissolving various arti-cles of food, and of effecting a kind of artificial diges-tion of them in no wise different from the natural digest-tive process."

From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from P-psin, as it is in the natural Gas-tric Julee itself." Professor DuxoLISON, of the Jefferson, College, Phila-delphia, in his great work on Human Physiology, devotes more than fify pages to an examination of this subject. His experiments with Dr. Beaumout, on the Gastric Julee, obtained from the lwing human stomach and from animals, are well known. "In all cases." he cays, "di-gestion occurred as perfectly in the artificial as in the natural digestions." AS A DYSPEPSIA CURER, Dr. Hocutrov's preparation of PEPSIN has produced the most marvelous effects, curing cases of Debility, Emacinion, Nervous Becline, and Dyspeptic Consump-tion, supposed to be on the very verge of the grave. Philosophy of Brandreth's Vegetable Philosophy of Brandreth's Vegetable Wiles the theory of the circulation of the blood was established, the secret springs of vitality were then partially exposed to our view. We saw and understood that the food we cat, was converted into blood, which repaired the waste of the animal machine; the food is fuel, which keeps at a life heat the internal fires that warm and invigorate our fumer man. The blood is an electric fluid which carries this heat to every ramification of the body, even to the extremilies of the hair and horny nail. While the blood is thus the salt of life, it is also the scal of disease. Food gives the body otrength; Brandreth's pills give blood the necessary ower to throw out from itself all impurities, thus ren-more sincere, there would be fewer religious creeds; and if they kept close to asture's laws in the mangement of their bodies, they would require little medicine. As men grow intellingent they will become wriser and hea-pict; even now, their wisdom is proved by the fact that, when sickness assails them, they use Brandroth's Vege-table Univeral Pills, which soon rentor them to health. They should be always in the bonse, so that upon the first indication of sickness in fire effects will be found beyond all praise. Three or five will act like a ving months of sickness in the wore and in early the second ing.
