It has become customary in the Atlantic cities for congregations to insure the lives of their Pastors, and o Christmes or New Year's day to make the inmity a present of the policy. This is certainly an excellent was of showing their regard for their Minister, whose salar in very many cases is scarcely equal to his immediation with the construction of the day of the state of the policy. To the man of family, at his death, it is a consolation beyond expression to know that his helples little ones are thus provided for.

Churches involved, would do well to insure the live of one or more of the trustees, at whose demise the amount would be applied to liquidate the debt.

Hundreds of new questomers, both wholesale and retail, have been attracted as much by the superior make of the clothing also by the lowness of my prices.

The proprietor would particularly call the attention of all dealers in Clothing to his present stock, believing that upon examination of the quality and prices of his Goods they will be induced to purchase at his establishment. Dr. Smon's great work, the "Chemistry of Man," Lea & Blanchard, Phila., 1846, pp. 321-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastre Juice itself."

Professor Dunatison, of the Jefferson College. Philadelphia, in his great work on Haman Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, Joinined from the living human stomach and from animals, are well known. "In all cases." he says, "digestion occurred as perfectly in the artificial as in the natural digestions." Family Groceries. Family Groceries.

AS A DYSPEPSIA CURER,

Dr. Housuton's preparation of PEPSIN has produced the most marvelous effects, caring cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consamption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated certificates have been given of more than TWO HUNDRED REMARK-ABLE CURES, in Philadelphia, New York, and Beston alone. These were nearly all desperate cases, and the cares were not only rapid and wonderful, but permanent. Trimming, Hostery and Variety.

The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare favorably with the most distinguished in our country. The Medical Faculty constitutes an anomaly in this or any other country—all of them are able Lecturers and the best of Teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that any other city has more.

Philosophy of Brandreth's Vegetable

WHEN the theory of the circulation of the blood was established, the secret springs of vitality were then partially exposed to our view. We saw and understood that the food we cat, was converted into blood, which repaired the waste of the animal machine; the food is fuel, which keeps at a life heat the linernal fres that warm and invigorate our inner man. The blood is an electric fluid which carries this heat to every ramification of the body, even to the extremities of the hair and horny nail. While the blood is thus the seat of life, it is also the seat of sitesase. Food gives the body strength; Brandreth's pills give blood the necessary power to throw out from itself all imparities, thas rendering the stream of life pure and healthy. If men were more sincere, there would be fewer religious creeds; and if they kept close to nature's laws in the management of their bodies, they would require little medicine. As men grow intelliligent they will become wiser and happier; even now, their wisdom is proved by the fact that, when sickness assalls them, they use Brandreth's Vegetable Univeral Pills, which soon restore them to health. They are peculiarly adapted to the climate, and require no extra care when they are used, in either diet or clothing. They should be always in the house, so that upon the first indication of sickness they may be used. One dose in the beginning is more potent for good, than a dozen after the sickness is fixed in the system. In colds, coughs, ashma, rheumatism, consiveness, fevers, and in all acute, heavy or deep-seated pains, their effects will be found beyond all praise. Three or five will act like a charm, often ouring a dangerous malady at once, saving months of sickness and the evils thereunto attending. Remember, Brandreth's Pills are a known and fully tested medicine, one that is used by hundreds of thousands in this country and throughout th Company. [ap3] WM. P. JONES, Agent.
