I took two bottles of your Pectoral Syrup, according to the directions on the bottle; and I am now, and have been ever since, entire-ity free from any of the unpleasant symptoms enumera-ted above. Dr. Coanz, in his valuable writings on the "Physiolo-gy of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-pre-valing cause of Dyspepsia," and he states that "a dis-tinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved com-pletely successful." Dr. Gasnasz, anihor of the famous works on "Vegeta-ble Diet," arys: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, im-part to the fluid the property of dissolving various arti-tices of food, and of effecting a kind of artificial diges-tive process?"

Dr. Sixox's great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1846, pp. 321-2) says: "The discov-ery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is discolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gas-tric Juice itself." Professor DUNGLISON, of the Jefferson Collego, Phila-delphia, in his great work on Human Physiology, devotes more than filty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases." he says, "di-gestion occurred as perfectly in the srificial as in the natural digestions." Dr. HOTOMICON'S preparation of PEPSIN has produced

We saw and understood that the food we cat, was converted into blood, which repaired the wasts of the animal machine; the food is fuel, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is note, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is note, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is note, which keeps at a life heat the second ramification of the body, even to the extermilies of the hir and horny nait. While the blood is thus the sean of life, it is also the seat of disease. Food gives the body strength: Brandreth's pills give blood the necessary power to throw ont from itself all impurities, thus ren-dering the stream of life pure and healthy. If men were more sincere, there would be fower religious creeds ; and if they kept close to nature's law at its the management of their bodies, they would require little medicine.
