JAMES W. WOODWELL, D Stuart & Co, No 122 Wood street. Whooping-Cough). Asthma and the various. Diseases of the Lunge and Pulmonary Organs.

THIS MEDICINE has an action in affections of the Pulmonary issues entirely different from any of the Expectorant and Cough Remedies now in use. It is one of the most speedy, as well as the most pleasant, medicines now in use. It does not open the pores and expose to a FRESH COLD. One or two doses frequently aliays all irritation and taking sensation produced by a harassing cough. Singers, public speakers, and those who are required to use the vocal organs to a great extent, will find in this Pectoral Syrup a sure and instant remedy for hourseness and laryageal irritation. It clears the throat perfectly of all collections of mucons, and gives tone and clearness to the voice.

SYMPTOMS—The symptoms which usually usher in a Cough of Cold may be enumerated as follows: This disease in the books is calle catawh, and is preceded by an increased discharge from the nose, fances and bronchia; there is a feeling of institute over the whole body, and very often cold shiverings are felt; at least the body is more than usually sensitive to the action of the air: the pulse increases in frequency, and there is generally more or less fever. These symptoma are soon followed with hourseness and a sense of roughness and soreness in the windpipe and vocal organs, together with a difficulty of breathing and a sense of construction of the chest. There is also attending a dult pain and sense of weight in the forchead, as well as a heaviness in moving the eyes. Those feelings, sometimes at the very beginning of the disease, and always soon after, are attended with a distillation from the nose and sometimes from the eyes, of a thin acid fluid, which frets and irritates the parts over which it passes. The, cough is at first usually dry; but as the disease progresses there is an expectoration of this mucous, which gradually becomes thicker and more copious, and having some appearance of pus-Hats, Caps and Furs. Dr. Grahars, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process." Dr. Simoy's great work, the "Chemistry of Man," (Lea & Blanchard, Phils", 1846, pp. 321-2) says: "The discovery of PEPSIN forms a new era in the chemical haistory of Rigestion. From recent experiments we know that food is discoved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the matural Gastric Juice itself."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject, His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases." he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Philosophy of Brandreth's Vegetable

When the theory of the circulation of the blood was established, the secret springs of vitality were then partially exposed to our view. We saw and understood that the food we cat, was converted into blood, which repaired the waste of the animal machine; the food is fact, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is an electric fluid which carries this heat to every ramification of the body, even to the extremities of the hir and horny nail. While the blood is thus the seat of life, it is also the seat of disease. Food gives the body strength; Brandreth's pills give blood the necessary power to throw out from itself all impurities; thus rendering the stream of life pure and healthy. If men were more sincere, there would be fewer religious breeds; and if they kept loss to anture's laws in the management of their bodies, they would require filling medicine. As men grow intelliligent they will become wiser and happier; even now, their wisdom is proved by the fact that, when sickness assails them, they use Brandreth's Vegetable Universell's pills, which soon restore them to health. They are peculiarly adapted to the climate, and require noextra care when they are used, in either dietor clothing. They should be always in the house, so that upon the first indication of sickness they may be used. One dose in the beginning is more potent for good, than a dozen after the sickness is fixed in the system. In colds, coughs, ashma, rheumalism, costiveness, fevers, and in all acute, heavy or deep-seated pains, their effects will be found beyond all praise. Three or five will act like a charm, often curing a dangerous malady at once, saving months of sickness and the evils thereunto attending. Remember, Brandreth's Pills are a known and fully tested medicine, one that is used by hundreds of thousands in this country and throughout Aldermen and Justices of the Peace. CHAS. G. BANCKER, Secretary.
