My purchases having been all made early, I have
therefore avoided the late advances made in almost all
descriptions of Woollen Goods, and am therefore enabled to offer my stock at unusually low prices.

I have this season paid more than usual attention to
the manufacturing and style of my garffents, so that the
very lowest priced as well as the finest are gof up in a
style, and elegance not to be surpassed. Hundreds of
new customers, both wholesale and retail, have been
attracted as much by the superior make of the clothing
as by the lowness of my prices.

The proprietor would princularly call the attention of
all dealers in Clothing to his present stock, believing
that upon exhibitation of the quality and prices of his
Goods they will be induced to purchase at his egablishment. The wholesale room now contains upwards of
\$2,000 garments, from the finest in quality to the lowest in
price.

H S Bosworth & Co., Fourth street; near Market. et." published by Fowle's & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Counz, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspopsia;" and he states that "a distinguished professor of medicine in London, who was asverely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lea & Bianchard, Phila; 1840, pp 321-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recept experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Philosophy of Brandreth's Vegetable

When the theory of the circulation of the blood was established, the secret springs of vitality were then partially exposed to our view. We saw and understood that the food we eat, was converted into blood, which repaired the waste of the animal machine; the food is fuel, which keeps at a life heart the internal fires, that warm and invigorate our inner man. The blood is an electric fluid which carries this heat to every ramification of the body, even to the extremities of the hair and horny nail. While the blood is fust the seat of dife, it is also the seat of disease. Food gives the body strength; Brandreth's pills give blood the necessary power to throw out from itself all impurities; thus rendering the stream of life pure and healthy. If men were more sincere, there would be fewer religious creeds; and if they kept close to nature's laws in the management of their bodies, they would require little medicine. As men grow intrilligent they will become wiser and happier; even now, their wisdom is proved by the fact that, when sickness assalls them, they use Brandreth's Vegenable Universal Fills, which soon restores them to health. They are peculiarly adapted to the climate, and require noextra care when they are used, in either diet or clonling. They should be always in-she boase, so that upon the first indication of sickness they may be used. One dose in the beginning is more potent for good, than a dozen after the sickness is fixed in the system. In colds, coughs, asthma, rheumatism, costiveness, fovers, and in all acute, heavy or deep-scated pains, their effects will be found beyond all praise. Three or five will act like a charm, often curing a dangerous malady at once, saving months of sickness and the evils thereunto attending. Remember, Brandreth's Pills are a known and fully tested medicine, one that is used by hundreds of thousands in this country and throughout The first class of the Law and Medical Departments of this Institute were small, but the gentlemen composing them are talented and in the highest degree respectable a favorable omes for the future prosperity of the Institute. That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a water in action, which anguis well for its future success; and that the peculiar internal organization which connects them, cannot be intercupted.
