A liberal discount to retail or fanc at \$2.00 \$\psi\$ 100 lbs. cies of hood, and of energing a sina of attaining algestion of them in no wise different from the natural digestive process,"

Dr. Shoa's great work, the "Chemistry of Mnn," (Lea & Blanchard, Phila., 1846, pp. 321-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive daid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunglison, of the Jefferson College, Philadelphin, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

AS A DYSPEPSIA CURER,
Dr. Houghton's preparation of PEPSIN has produced the most marvelous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated certificates have been given of more than TWO HUNDRED HEMARK. ount to retailers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt us to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that any other city has more.

The first class of the Law and Medical Departments of this fastitute were small, but the gentlemen composing them are talented and in the highest degree respectable—a favorable omea for the future prosperity of the Institute.

That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a unit in action, which augurs well for its future success; and that the peculiar internal organization which connects them, cannot be interupted.

Philosophy of Brandreth's Vegetable
Phils.*

WHEN the theory of the circulation of the blood was established, the secret springs of vitality were then partially exposed to our view. We saw and understood that the food we eat, was converted into blood, which repaired the waste of the animal machine; the food is fuel, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is an electric fluid which carries this heat to every ramification of the body, even to the extremities of the hair and horny nail. While the blood is thus the seat of life, it is also the seat of disease. Food gives the body strength; Brandreth's pills give blood the necessary power to throw out from itself all imperities, thus rendering the stream of life pure and healthy. If men were more sincere, there would be fewer religious creeds; and if they kept close to nature's laws in the management of their bodies, they would require little medicine. As men grow intelliligent they will become wiser and happier; even now, their wisdom is proved by the fact that, when sickness assails them, they use Brandreth's Vegetable Universit Pills, which soon restore them to health. They are peculiarly adapted to the climate, and require no extra care when they are used, in either diet or clothing. They should be always in the house, so that upon the first indication of sickness they may be used. One dose in the beginning is more potent for good, than a dozen after the sickness is fixed in the system. In colds, coughs, asthma, rheumatism, costiveness, fevers, and in all acute, heavy or deep-seated pains, their effects will be found beyond all praise. Three or five, will act like a charm, offen curing a dangerous malady at once, saving months of sickness and the ovils thereunts attending. Remember, Brandreth's Pills are a known and fully tested medicine, one that is used by hundreds of thousands in this country and throughout the civilized world. They are quietly supersedi N Buckmaster, Fourth street, above Smith A G Reinhart, Irwin street, near Liberty.
