In colds, coughs, asthma, theumatism, cosiveness, fevers, and in all acute, heavy or deep-seated pains, their effects will be found beyond all praise. Three or five will act like a charm, often curing a dangerous malady at once, sa-ving moniths of sickness and the evils thereunto attend-ing. Remember, Braddreth's Pills are a known and fully tested medicine, one that is used by hundreds of thonsands in this country and throughout the civilized world. They are quietly superseding all other medi-cines. They take outonly thin from the blood which is the cause of weakness and pain, leaving strength and health ; they preduce healthy sleep at night, and an ap-petite tharelishes all kinds of food. We saw and indorstood that the food we ent, was converted into blood, which repaired the waste of the animal machine; the food is fuel, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is an electric fluid which carries this leat to every ramifaction of the body, even to the extremities of the hair and horny nail. While the blood is thus the scat of life, it is also the seat of discuse. Food gives the body strength; Brandreth's pills give blood the mecessary power to throw out from itself all imparities, thus forn-dering the stream of life pure and healthy. If men were more sincere, there would be fewer religious creeds i and if they kept close to an ure's law sin the management of their bodies; they would require little medicine. As men grow intellifighen they will become wiser and hap-pier; even now, their wisdom is proved by the fact that, when sichness assilis them, they use Brandreth's Vege-table Univeral Pills, which soon restore them to health. They ne peculiarly adapted to the climate, and require no extra care when they are used, in eather dist or cloth-ing. They should be havays in the house, so that upon the first indication of eickness they may be used. It has become customary in the Atlantic cilles for con-gregations to insure the lives of their Pastors, and on Christmas or New Year's day to make the family a pre-sent of the policy. This is certainly an excellent way of showing their regard for their, Minister, whose salary in very many cases is scircely equal to his immediate wants. To the man of family, at his death, it is a con-solation beyond expression to know that his helpless litte ones are thus provided for. Churches involved, would do well to insure the lives of one or more of the trastees, at whose demise the amount would be applied to liquidate the debt. SCIENTIFIC EVIDENCE ! Baron Limno, in his celebrated work on Animal Chem istry, says: "An artificial Digrestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mu-cous membrane of the stomach of the cali, in which va-rious artucles of food, as meat and eggs, will be so soft-ened, changed, and digested, just in the same manner as they would be in the human stomach." Dr. PERTRA, in his famous treatise on "Food and Di-et," published by Fowlers & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira. THE subscriber having just returned from the East, now receiving and opening a splendid stock of good

states the same great fact and a suborities than Dr. Perejation. There are few higher authorities than Dr. Percia. Dr. Coxme, in his valuable writings on the "Physiolo-gy of Digestion," observes that "a diminution of the due gunnity of the Gastric Juice is a prominent and all-pre-vailing cause of Dyspepsia," and he states that "a dis-tinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved com-pletly increasing." "Dr. Gaznam, anthor of the famous works on "Vegeta-ble Diet," Bayst "It is a remarkable fact in physiology, "that the stomachs' of animals, macerated in water, im-part to the fulli the property of dissolving various arti-cles of foodpand of effecting a kind of artificial diges-tion of them in no wise different from the natural diges-tion of them in no wise different from the natural diges-tion provide."

Dr. Show's great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1846, pp 321-2) says: "The discov-ery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gas-tric Julce itself." Professor Duxatison, of the Jefferson College. Phila-delphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. [Jiice, obtained from the living human stomach and from unimals, are well known. "In all cases." he says, "di-gestion occurred as perfectly in the artificial as in the natural digestions." AS A DYSPEPSIA CURER, Dr. Horectrox's preparation of PEPSIN has produced the most marvelous effects, curing cases of Debility, Emacidion, Nervous Decline, and Dyspepic Cousump-tion, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of whis advertisencet-but anthenticated certificates have been given of more than TWO HUNDRED REMARK-ABLE CURES, in Philadelphia, New York, ind Boston alone.
