IT HAS AN ENTIRELY NEW ACTION—The old Cough Medicines always sicken the stomach and produce nausea which is more disagreeable than the Cough itself. This is obviated in this mixture, for it is a pleasant soothing article and it will cure, or the maney will be refunded. The evidence in favor of this medicine in our city, from our own citizens, should convince any one of its efficacy. His its he prescription of a regular physician, and has been used by him in his own practice for a number of years, with the most heroic success.

CONSUMPTION—A lady from Steubenville writes, that her daughter hed heen afflicted with a Cough and expectoration, night sweats, heetic fever, and all the distressing symptoms of consumption, and that after taking two bottles she was entirely cured. A gentleman in Washington county, who had suffered with Ashma and Chronic Cough for eight years, has been entirely relieved and the cough removed by the use of haif a dezen of bottles of the Pectoral Syrup. A gentleman from Peoria, Illinois, writes that "he knows the Pectoral Syrup to be a good article, for he has used it in his owas case and in the cases of members of his family with the most perfect success.

Wholesals and Retail Dealer in Clothing, 151 Liberty at.

Pittsburgh, Pa.

MY stock of Fall and Winter Clothing is now ready, amounting, to upwards of \$100,000, which I think will be found to by one of the choicest selections of garments ever got up in this or any other city in the Western country.

My purchases having been all made early I have therefore avoided the late advances made in almost all descriptions of Woodlen Goods, and am therefore enabled to offer my, stock niunusually low prices.

I have this senson paid more than usual attention to the manufacturing and style of my garments, so that the very lowest priced as well as the finest are got up in a style and elegance not to be surpassed. Hundreds of new customers, both wholesale and retail, have been attracted as much by the superior make of the clothing as by the lowness of my prices.

The proprietor would particularly call the nttention of all dealers in Clothing to his present stock, believing that upon examination of the quality and prices of his Goods they will be induced to purchase at his establishment. The wholesale room now contains upwards of 2,000 garments, from the finest in quality to the lowest in The proprietor was now determined to make this deavor. THREE BIG DOORS! Lawrenceville Property.

The Faculties, for intellectual abilities, moral worth and professional acquirements, will compare favorably with the most distinguished in our country. The Medical Faculty constitutes an anomaly in this or any other country—all of them are able Lecturers and the best of Teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubtas to the cligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that anyother city has more.

The first class of the Law and Medical Departments on this Institute were small, but the gentlemen composing them are talented and in the highest degree respectable—a favorable omea for the future prosperity of the Institute and Faculty form a wait in action, which angurs well for its future success; and that the peculiar internal organization which connects them, cannot be interupted.

SCIENTIFIC EVIDENCE!

Baron Liero, in his celebrated work on Animal Chem istry, anysen, in his celebrated work on Animal Chem istry, anysen, and the stomach of the call, in which wardous membrane of the stomach of the call, in which wardous studies of food, as meat and eggs, will be so softened, changed and digested, just in the same manner as they would be in the human stomach.

Br. Pearstra, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Percira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Julceis a prominent and all-prevailing cause of Dyspepaia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything cles to fall, had recourse to the Gastric Julceis as prominent and electric from the stomach of living animals, which proved completely successful."

Dr. Gränam, author of the famous works on "Vegetable Diet," Mays: "It is a remarkable fact in physiology, that the stomachs of minmals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestive process,"

Dr. Simon's great work, the "Chemistry of Man," (Lea Blanchard, Phila., 1840, pp. 321-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Grastric Julce itself."

Professor Dunalison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Julce, obtained fr of which will be marked down to lower prices man any
