JANKER W. WOODWELL. THAS AN ENTIRELY NEW ACTION—The old Cough Medicines always sicken the stomach and produce nausea which is more disagreeable than the Cough itself. This is obviated in this mixture, for it is a pleasant soothing article and it will cute, for it is a pleasant soothing article and it will cute, for this medicine in our city, from our own citizens, should convince any one of its efficacy. It is the prescription of a regular physician; and has been used by him in his own practice for a number of years, with the most heroic success.

CONSUMPTION—A hady from Steubenville writes, that her daughter had been affired with a Cough and expectoration, night sweats, heetic fever, and all the distressing symptoms of consumption, and that after taking two bottless she was entirely cured. A gentleman in Washington county, who had suffered with Ashmin and Chronic Cough for eight years, has been entirely relieved and the cough removed by the use of half a decent of bottless of the Pectoral Syrup. A ger them from Peoria, Illinois, writes that he knows the Pectoral Syrup to be a good article, for he has used it in his own case and in the cases of members of his family with the most perfect success.

It is one of the Cheaperst Medicines, now known.—It is put up in half pint bottles at 50 cents each, or six bottles for \$2,50.

COUNTRY STORKERPERS would do well to keep a supply of this medicine on hand ull the time, as it is one of the most perfect and efficacious remedies ever discovered for all coughs and disenses of the lungs and incipient Consumption.

When the theory of the circulation of the blood

Was established, the secret springs of vitality
were then partially exposed to our view. We saw and
inderstood that the food we eat, was converted into
blood, which repaired the waste of the animal machine;
he food is fael, which keeps at a life heat the internal
fires that warm and invigorate our timer man. The
blood is an electric fluid which carries this heat to every
ramification of the body, even to the extremities of the
hair and horny nail. While the blood is thus the seat of
life, it is also the seat of discase. Food gives the body
strength; Brandreth's pills give blood they necessary
power to throw out from itself all impurities, thus rendering the stream of life pure and healthy. If men were
more sincere, there would be fewer religious creeds,
ind if they kept close to nature's laws is the management
of their bodies, they would require little medicine. As
men grow intelligient they will become wiser and happier; even now, their wisdom is proved by the fact that,
when sichness assails them, they use Brandreth's Vegetable. Univeral Pills, which soon restore them to health.
They are peculiarly adapted to the climate, and require
no extra care when they are used, in other diet or clothing. They should be always in the house, so that upon
the first indication of sickness they may be used. One
dose in the beginning is more potent for good, than a
dizon after the sickness is fixed in the system. If colds,
coughs, ashma, rheumatum, cosiveness, fevers, and in
all acute, heavy or deep-scated pains, their effects will
be found beyond all praise. Three or five will act like
a charm, often curing a dangerous malady at once, saving months of sickness and the evils thereunts attending. Remember, Brandreth's Pills are a known and

Wholesale and Retail Beater in Clothing, 151 Liberty st.

Piltburgh, Pa.

M's stock of Fall and Winter Clothing is now ready, amounting to upwards of \$100,000, which I think will be found to by one of the choicest selections of garments ever got up in this or any other city in the Western country.

My purchases having been all made early, I have therefore avoided the late advances made in almost all descriptions of Woollen Goods, and am therefore-enabled to offer my stock at unusually low prices.

I have this season paid more than usual attention to the manufacturing and style of my garments, so that the very lowest priced as well as the finest dre got up in a style and elegance not to be surpassed. Hundreds of new customers, both wholesale and retail, have been attracted as much by the superior make of the clothing as by the lowness of my prices.

The proprietor would particularly call the attention of all dealers in Clothing to his present stock, believing that upon examination of the quality and prices of his Goods they will be induced to purchase at his establishment. The wholesale room now contains upwards of 2,000 garments, from the finest in quality to the lowest in price.

The proprietor was more themselved to make this denart-Caifornia risk isken at reduced rate.

Among the advantages of a Policy in this Company are the following:—

A purty insured for the whole term of life may at any sime borrow one-half the amount of annual premium, without note or security or deposit of policy, and is entitled to division of profits.

He may at any time surrender his policy, and receipe back as value thereof one-saif the gross sum paid by him in amount common premiums.

A party already insured for whole life may, on payment of a small sum, convert his insurence into a new policy upon the loan system how introduced.

Parties already insured and entitled to a two-third loan, are not shut out from said two-third loan, if the prefer it, upon the terms stated in the Society's pamphetes. feb3 JOHN RHEY.

PETROLEUM OR ROCK OIL; ern times!

Tie not more than one year ago since this great rem. Ledy was brought before the public, for the relief and cure of disease. Its great powers to heal, have, since then, become fully appreciated by the community, and we allege that the longer it is tried the more certain will its great fame spread. It is not the remedy of a day, got up for the sole purpose of making money; but, one, which we conceive, will continue to be used when all nostrums have beer forgotten. The PETROLEUM is a Natural Remedy, elaborated in the depths of the earth by a power and agency that laughs to scorn all human competition. It is our duty, when we write about a medicine, that we write zaurs—that we say nothing calculated to deceive those who may trust our word or put confidence in our statements. The sick are very apt to catch at any thing that promises relief from discease. A story can hardly be too highly wrough to aniswer the object of gullingor humbugging some of them. Now, we do not desire to do this; we are anxious only that the truth in relation to our Remedy should be told, in order to secure for it a reputation far exceeding any single article of the sactiva medica. Plain, unvarished facts—facts that may be ascertained in our own city and neighborhood, bear ample testimony in favor of the Petroleum.

Memphi, Tenn., March, 1850.

The Facatites, for intellectual shillides, moral worth and professional acquirements, will compare favorably with the most distinguished in our country. The Medical Faculty constitutes an anomaly in this or any other country—all of them are able Lecturers and the best of Teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that any other city has more.

The first class of the Law and Medical Departments on this institute were small, but the gentlemen composing them are talented and in the highest degree respectable—a favorable omea for the future prosperity of the Institute. That the public may be satished of the permanency of this school, we feel it our duty to state, that the Trusteer and Faculty form a wait in action, which augurs well for its future success; and that the peculiar internal organization which confects them, ca mot be interupted.

E. W. M. KING, applied to the Memphis Institute.

Silver Forks, Spoons, &c. states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Comba, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the duc quantity of the Gastric Juice is a prominent and all-prevailing cause of Dyspeptia;" and he states that "a distinguished professor of medicine in London, who was severely afficited with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely snocessful."

Dr. Garlias, ambor of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomach of animals, macersted in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Shao's great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1846, pp 321-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice, obtained from the living human stomuch and from animals, are well known. "In all cases." he says, "discovered as perfectly in the artificial as in the natural digestions."

As A DYSPEPSIA CURER,

Dr. Hovemen's preparation of PEPSIN has produced the most marvelous effects, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the details of cases in the limits of this advertisement—but authenticated certificates have been given of more than TWO HUNDRER! EMARK.

ABLE CURES, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent. G. A. COLTON, Agent, nov18
