THE UNRIVALLED PLACE for obtaining all Wines,
Liquors, &c., GOOD and CHEAP.

SMDER? has lately—in consequence of the numerous large sales made by him to consumers—been obliged largely to replenish his slock by fresh importations, and he has now the satisfaction of offering some of the best Wines and Liquors ever imported by him. He would refer to some invoices as follows—viz:

DUFF, GORDON & CO. SHERRIES—embracing delicate Pales at very low prites, rare old, and some very bindee MANRANILIA, all on druight by the gallon—Also, rare old delicate AMONTILIADO; in eachs of 16 gallons springly selected for consumers. Some EXTRA AMONTILIADIA is not lies put up in Earope, which he challenges us equal to any that can be produced.

The NANZANILIA and AMONTILIADO Sherries are peculiarly adapted to convalescents, as they strengthen without stimulating, and have not the acid of many other Wines principally specially selected for his sales to consumers from the stock of "BURMESTAD's," at Opprio, and imported titrest.

These Wines are fruity and delicate, and have been highly approved by his customers, because of their manifest superiority over all other Ports and Red Wines palmed off as such.

The Faculties, for intellectual abilities, moral worth and professional acquirements, will compute favorably with the most distinguished in our country. The Medical Fabulty constitutes an anomaly in this or any other country—all of them are able Lecturers and the best of Teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that any other city has more.

The first class of the Law and Medical Departments on this institute were small, but the gentlemen composing them are takened and in the highest degrée respectable—a favorable omes for the future prosperity of the Institute. That the public may be satisfied of the permanency of this school, we feel it our duty to sinte, that the Trustee and Faculty ferm a wrift in action, which angure well for its future success; and that the peculiar internal organization which connects them, cannot be interrupted.
