THE aubactioers take this method to inform property holders, house-builders, and all others interested; that they still continue the business of Tin Roofing, in all its branches. Their skill and experience in this part of the business, has hitherto ethabled them to give entire satisfaction. And they hope; that by continuing the same policy of using the best materials, and emploging skillful workmen, to keep up this favorable impression. If the question of Tin Roofing was new, or just brought before the notice of this community for the first time, we would consider that the importance of the subject would justify as in extending our views on its superior radvantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the 6th day of June, 1844, (nearly seven yeats ago.) we fin-ished our first job of Tin Roofing in this place. From that up to the present time, we have covered with tin have been erected in this county. We have given our views on a previous obccasion on the superior advantage of Tin over iton, as a covering for houses. And time, the grate tester of all things, has but too clearly proven the grate tester of all things, has but too clearly proven the grate tester of all things, has but too clearly proven the grate tester of all things, has but too clearly proven the grate tester of all things, has but too clearly proven the grate tester of all things, has but too clearly proven the grate tester of all things, has but too clearly proven the grate tester of all things, has but too clearly proven the grate tester of all things, has but too clearly proven the grater, brakes, with some decided advantages. These advantages are, that when this used the roof can be made much flatter-therely saving materials, in the length of rathers, brick in the gable end-marking the 75 Mules, Wagons, Scrap Metal, and Stock on hand, on a credit of twelve months. I will also sell, on the 11th day of April, 1851, at the late residence of Robert Baxter, in Monigomerv county, Tennessee, about 30 Mules, Horses, Catlé, Honschold and Ritchen Furniture, together with all personal prop-erty of said Robert Baxter; on a credit of 12 months — Bond and security will be required on all sums over \$10. The sale will be continued at each place from day to day, till all the property is sold. Dec. 17, 1850. ROBERT BAXTER, Adm'r. HOUGHTON, M.D., No. 11, North Eighth street, Philadelphia, Pa. This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, JUNDICE, CONSTIPATION, LIVER COMFLAINT, and DEBLIZY, curing alter Nainer's own method, by Nature's own agent, the Gastric Julee. Half a tenspondini of this Fluid, infused in water, will digest or dissolve Frve POUNDS of ROAST BERF IN ABOUT TWO HOURS, out of the stomach. SCIENTIFIC EVIDENCE ! Baron LikeBo, in his celebrated work on Animal Chem istry, angs: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the ma-rous membrane of the stomach of the calf, in which va-rious articles of food, as meat and eggs, will be so sofi-ened, changed and digested, just in the same manner as they would be in the human stomach." Dr. Coxus, in his valuable writings on the "Physiolo-gy of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all-pre-vailing cause of Dyspepsia," and he states that "u dis-tinguished professor of medicine in London, who was severely afflicted with this complaint, fading everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living, animals, which proved com-pletely successful." Dr. Gantam, author of the famous works on "Vegeta-ble Diet," saya: "It is a remarkable fact in physiology, that the stomach of a nimals, macerated in water, im-part to the fluid the property of dissolving various arti-cles of food, and of effecting a kind of artificial diges-tioa of them in no wise different from the natural digest-ive process."
