M.D. PATTON. The proprietor is now determined to make this depart PETROLEUM OR ROCK OIL;

T is not more than one year ago since this great remely was brought before the public, for the relief and oure of disease. Its great powers to heal, have, since then, become fully appreciated by the community, and we allege that the longer it is tried the more certain will its great fame, spread. It is not the remedy of a day, got up for the sole purpose of making money; but, one, which we conceive, will continue to be used when all noatrums have been forgotten. The PETROLEUM is a Natural Bemedy, elaborated in the depths of the earth by a power and agency that laughs to scorn all human competition. It is out duty, when we write about a medicine, that we write TEUTH—that we say nothing calculated to deceive those who may trust our word or put confidence in our statements. The sick are very apt to catch at any thing that promises relief from discase. A story can hardly be too highly wrought to answer the object of gulling or humbugging some of them. Now, we do not desire to do this; we are antious only that the truth in relation to our Remedy should be told, in order to secure for it a reputation far exceeding any single article of the materia medica. Plain, unvarnished facts—facts that may be ascertained in our own city and neighborhood, bear ample testimony in Tavor of the Petroleum.

Within the past (we months, two of our own city end. PETROLEUM OR ROCK OIL; quantity desired.

DREPARED from Rennet, or the fourth stomach of
the Ox, after directions by Baron Lureno, the great
Physiological Chemist, by J. S. HOUGHTON, M.D., No.
11, North Eighth street, Philadelphis, Pa.
This is a truly wonderful remedy for INDIGESTION,
DYSPEPSIA, JUNVICE, CONSTIPATION, LIVER
COMPLAINT, and DEBILITY, curing after Nature's
own method, by Nature's own agent, the Gastric Juice.
Half a teaspoonfull of this Fluid, infused in water,
will digest or discolve Five Pourds of Roast Brey in
ABOUT TWO HOURS, out of the Stomach.

SCIENTIFIC EVIDENCE!

Baron Lurene, in his celebrated work on Animal Chem
'istry, says: "An artificial Digestive Fluid, analogous to
the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the calf, in which various articles of food, as meat and eggs, will be so softoned, changed and digested, just in the same manner as
they would be in the human stomach."

Dr. Perstra, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, puge 33,
states the same great fact, and describes the method of
preparation. There are few higher authorities than Dr.
Pereira.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we deny that anyother city has more:

The first class of the Law and Medical Departments on this Institute were small, but the gentlemen composing them are talemted and in the highest degree respectable—a favorable omea for the future prosperity of the Institute. That the public may be satisfied of the permanency of this school, we teel it our duty to state, that the Trustees and Faculty form a waft in action, which argurs well for its future success; and that the peculiar internal organization which connects them, cannot be interpreted. zation which connects them, cannot be interapted.

The Roofing.

The Roofing and all others interested, that they still continue the business of Tin Roofing in all its branches. Their skill and experience in this part of the business, has hitherto enabled them to give entire satisfaction. And they hope, that by continuing the same policy of using the best materials, and employing skillful workmen, to keep up this favorable impression. If the question of Tin Roofing was new, or just brought before the notice of this community for the first time, we would consider that the importance of the subject would justify us in extending our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the standard of the first shadows of the fi saic of Mules, Wagons, &c.

I will, as the Adm'r of Robt Baxter, sell at the Louisa Furnace, in Montgomery County, Tenn, on the 9th day of April, 1831, all the personal property of the said Robt. Baxtet, belonging to said Furnace, consisting of 75 Males, Wagons, Scrap Metal, and Stock on kand, on a credit of twelve months.

I will also sell, on the 11th day of April, 1851, at the late residence of Robert Baxter, in Montgomery county, Tennessee, about 30 Mules, Horses, Cattle, Household and Ritchen Furniture, together with all personal property of said Robert Baxter; on a credit of 12 months—Bond and security will be required on all sams over \$10. The sale will be continued at each place from day to day, till all the property is sold.
