IT HAS AN ENTIRELY NEW ACTION—The old Cough Medicines always sieken the stomach and produce nausea which is more disagreeable than the Cough itself. This is obviated in this mixture, for it is a pleasant soothing article and it will qure, or the money will be refunded! The evidence in favor of this medicine in our city. Trom our own citizens, should convince any one of its efficacy. It is the prescription of a regular physician, and has been used by him in his own practice for a number of years, with the most heroic success.

CONSUMPTION—A lady from Stephenville writes, that her daughter had been afflicted with a Cough and expectoration, night sweats heetic tever, and all the distressing symptoms of consumption, and that after laking two bottles she was entirely eared. A gentleman in Washington county, who had suffered with Ashma and Chronic Cough for eight years, has been entirely relieved and the cough removed by the use of half a dozen of bottles of the Pectoral Syrap. Agen tleman from Peoria, Illinois, writes that "he knows the Pectoral Syrap to be a good article, for he has used it in his own case and in the cases of members of his faining with the most perfect success.

In store and for sale by KING & MOORHEAD. Pereira.

Dr. Combr., in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastrie Juice; a prominent and all-prevailing cause of Dyspeptain;" and be stafes that "a distinguished professor of medicine in London, who was severely afflieted with this complaint, finding everything clse to fail, had recourse to the Gastrie Juice, obtained from the stomach of living animats, which proved completely successful."

Dr. Gasham, author of the famous works on "Vegetable Diet," says; "It is a remarkable fact in physiology, that the stomachs of animals, inacerated in water, impart to the fluid the property of dissolving various unicles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process,"

Dr. Stono's great work, the "Chemistry of Man," (Lea & Blanchard, Phila, 1816, pp 321-4) says; "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dualison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastrie Juice, obtained from the living human stomach and from animals, are well known. "In all cases." he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

AS A DYSPEPSIA CURER,

Dr. Houghtrox's preparation of PEPSIN has produced the most marvelous effects, curing cases of Dobility. Philosophy of Brandreth's Vegetable Pills.

WHEN the theory of the circulation of the blood was established, the secret springs of vitality were then partially exposed to our view. We saw and understood that the food we cut, was converted into blood, which repaired the waste of the animal inchine the food is tuel, which keeps at a life heat the linernal fires that warm and invigorate our inner man. The blood is an electric fluid-which carries this heat to every ramification of the body, even to the extremities of the hair and horny nail. While the blood is thus the seat of life, it is also the seat of disease. Food gives the body strength; Brundreth's pills give blood the necessary power to throw out from itself all impurities, thus rendering the stream of life pure and healthy. If men were more sincere, there would be fewer religious creeds; and if they kept close to nature's laws in the madagement of their bodies, they would require little medicine. As men grow intelligent they will become wiser and happier; even now, their wisdom is proved by the fact that, when sickness assaits them, they use Brandreth's Vegenble Universal Pills, which soon restore them to health. They are peculiarly adapted to the climate, and require WHITE HAVANA SUGAR—20 bores White Ha vana Sugar, just received and for sale by deci9 MILLER & RICKETSON. They are peculiarly adapted to the climate, and require no extra care when they are used, in either diet or clothing. They should be always in the house, so that upon the first indication of sickness they may be used. One dose in the beginning is more potent for good, than a dozenather the sickness is fixed in the system. In colds, compts, asthma, theumatism, costiveness, fevers, and in all neute, heavy or deep-sented pains, their effects will be found beyond all praise. Three or five will act like a charm, often curing a dangerous mutady at once, saving mouths of sickness and the cylls thereunto attending. Remember, Brandreth's Pills are a known and fully tested medicine, one that Is used by hundreds of thousands in this country and throughout the civilized world. They are quietly superseding all other medicines. They take out only that from the blood which is the cause of weakness and pain, leaving strength and heath; they preduce heathly sleep at night, and an appetite that relishes all kinds of food.

The bouse-builders, and all others interested, that they still continue the business of Tin Roofing, in all its branches. Their skill and experience in this part of the business, has hitherto enabled them to give entire satisfaction. And they hope, that by continuing the same policy of using the best materials, and employing skillful workmen, to keep up this favorable impression. If the question of Tin Roofing was new, or just brough before the notice of this community for the first time, we would consider that the importance of the subject would justify us in extending our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the 6th day of June, 1814, (nearly seven years ago.) we finished our first job of Tin Roofing in this place. From that up to the present time, we have covered with tin the roofs of the finest and most costly buildings that have been erected in this county. We have given our views on a previous occasion on the superior advantage. DOMESTIC AND STAPLE GOODS. To the Citizens of Allegheny City. DOMESTIC AND STAPLE GOODS.

MATTHEW D. PATTON. of Thi over them, sa a crossing of the great tester of all things, has but too clearly proven the correctness of our opinion.

Again, if we place Thin is juxta-position, with Slate as a covering for houses, we think that tin will bear a favorable comparison, with some decided advantages.—
These advantages are, that when tin is used the roof can be made much flatter—thereby saving materials, in the length of rafters, brick in the gable ends—making the house easy of access in case of a fire, and showing a better finish and appearance. Also, when the is used the gutters are worked in, thereby saving the extra and heavy expense for copper gutters, copper flashings, &c.—things indispensible on slate roofs. If further reasons were deemed necessary, we could offer the experience of our eastern cities in proof what has been advanced. very low prices. IJF No. 75 Market street, Puts burgh, nov16

THE PLANTAGENET GUARD RAZORS Can be used in bed, in the dark, and by persons with tremulous hand, with ease, safety, and in half the usual time, without the possibility of cutting the skin. This is effected by means of the parent Guard, which is adjusted to the razor with the greatest nicety and simplicity.—
Every Razor is— Hull's Sarsaparilla and the Cholera.

Not a single man, woman or child has died of the CHOLERA or any of its symptoms who used this invaluable preparation. Look at the city of Louisville, where this Sarsaparilla is made, and where from 150 to 200 hottles are retailed dail, but few isolated cases of Cholera have occurred, and they were either persons from boats or those who distegarded our advice.
