BRANCH OFFICE, 54 Smithface of the Directors in
Insurance of the success of the Directors in
Insurance of the apparaileled amount of business
which has been done—having issued nearly 4,000-Poil
cles in a little more than seven months and adding
over 870,000 capinit to the company. The Directors are
proud to say, than ucarly all the property insured as of
the safest kind, in small ricks, and a large proportion
insured for only one year.
Number of Policies issued ... 3,859
Amount of property insured ... \$4,073,568 00
Amount of property insured ... \$4,073,568 00
Amount of cashpremiums ... 24,013,60
Amount of cashpremiums ... 24,013,60
Amount of fostes \$3,500 00
To be deducted from the above the incidental expenses of the office.
To city or country merchants, and owners of dwellings, and isolated or country property, it is believed
this company affords advantages in point of cheapness,
safety and security, inferior to no insurance Company
it this country.
Conducted on the equitable and greatly improved system of Classificatior of Risks, excluding all special
inards, insuring only a limited amount in any one locality, thus precluding the frequency and decentrence of
large hres, and also, on both the Stock and Mutual plan,
it not only possesses the cheapness and accommodation
of both methods, but enalles the insured to a participation in the profits.

It is under the control of the following Directors: —J.
P. Rutherford, A. J. Gillstt, John B. Packer, Samuel T.
Jones, Alonzo A. Carrier, Philo C. Sedwick, Robert
Klotz. J. J. RUTHERFORD, Prest

No. 141 Front street. Distriction of the control of the co M ONONGAHELA RECTIFIED WHISKEY-250 blis. on hand and for sale by febis. T is not more than one year ago since this great temdedy was brought before the public, for the relief and cure of disease. Its great powers to heal, have, since then, become fully appreciated by the community, and we allege that the longer it is tried the more certain will its great fame spread. It is not the remedy of a day got up for the sole purpose of making money; but, one, which we conceive, will continue to be used when all nostrums have been forgotich. The PETROLEUM! is a Natural Remedy, elaborated in this depths of the earth by a power and agency that laughs to scorn all human competition. It is our duty, when we write about a medicine, that we write TRYM—that we say nothing caiculated to deceive those who may trust our word or put confidence in our statements. The sick are very apt to catch at any thing that promises relief from disease. A story can hardity be too highly wrought to an swer the object of guilinger humbugging some of them. Now, we do not desire to do this; we are anxious only that the trust in relation to our Remedy should be told in order to scoure for it a reputation far exceeding any single article of the materia medica. Plain, anvarnished facts—facts that may be ascertained in our own city and neighborhood, bear ample testimony in favor of the Petroleum. OlGARS—200 brs. Principe, Regulia, and Yara Sixes teb18 IM. D. VO-PARTNERSHIP.—The subscribers have entered into Co-Partnership under the firm of Scape, Attension & Orely.

WM. B. SCAIFE, JAMES ATKINSON, JOHN M. OKELY. One Price Store of A. A. MASON & CO., Nos. 62 and 61 Market street. prefer it, upon the terms stated in the Society's pamphlets.

A party may, at a moderate annual premium, insurator itie, and he survive to reach the age of 60 years, the full sum insured up to \$15,000, will be paid to him or if he dies before reaching that age, the full sum insured will be paid to his family or legal repressatiatives.

It has become customary in the Atlantic cities for congregations to insure the lives of their Pastors, and on Christmas or New Year's day to make the family a present of the policy. This is centainly an excellent way, of showing their regard for their Miniator, whose salary in very many cases is scarcely equal to his immediate wants. To the man of family, at his death, it is a consolation beyond expression to know that his helpless little ones are thus provided for.

Churches involved, would do well to insure the lives of one or more of the trustees, at whose demise the amount would be applied to liquidate the debt.

Explanatory pamphlets and information given gratis, at the Banking House of WM. A. HILL & CO.

Removal.

THE subscriber wishes to inform the citizens of Pittsburgh and the public generally, that he has removed his CARPET STJRE from Nos. 61 and 63 Wood street, to the Apollo Buildings, on Fourth street, recently occupied by the Museum, and has connected therewith the adjoining rooms, formerly used as the Chronicle Printing office—which, in connection with his old room, makes the most spacious Carpet establishment in the country; and his advantages so far surpass any house in this city for space, arrangement and good light, that he is certain of suiting every person who may favor him with a call. His stock is complete in every article in his line, and great pains will be taken at all times to show goods to persons wishing to look or buy.

SALE OF VALUABLE

IRON WORKS, NEGROES, MULES, &c.
IN pursuance of a decree of the Chancery Court in Clarksville, at the October torm, 1850, I will sell at the Louisa Farnace, in Monigomery County, State of Tennessee, on the 9th day of April, 1851, the Farnace known as the Louisa Furnace and the Mount Vernon Furnace, with all the lands attached and adjoining therefo, amounting to some 20,000 acres. At the same time and place I will sell a valuable negro man, John Carter, a Founder, and his wife and children, on a credit of 1, 2, and 3 years. The real estate on a credit of 1, 2, 3 and 4 years.

On the 1th of April, 1851, I will also sell, at the late WFINDOW SASH of all styles for sale by
H. C. KELLY,
1810 Agent for Fallston Sash Factory. rath a temporation of this rina, imisses in water, will digest or dissolve Five Pouns or Roast Bree in About two hours, out of the stomach.

SCIENTIFIC EVIDENCE!

Baron Liema, in his celebrated work on Animal Chem istry, says: "An artificial Digestive Finid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the call, in which various articles of food, as meat and eggs! will be so softened, changed and digested, just in the same manner as they would be in the human stomach."

Dr. Perstra, in his famous treatise on "Food and Dict," published by Fowlers & Wells, New York, page 35, states the same great fact, and desoribes the method of preparation. There are few higher authorities than Dr. Perstra.

Dr. Coanre, in bis valuable writings on the "Physiology of Digestion," observes that "a diminution of the duquanity of the Gastric Juice is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely affineted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. Garlam, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of the manual physiology, devotes more than five pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases." he says, "digestion, supposed to be on the very verge of the grave. It is impossible to give t Agent for Fallston Sash Factory.

OF one, two and three g asses, suited for detecting counterfeit bank notes, and other purposes, for sale by [oct21] JOHN B. MFADDEN & CO. Tin Roofing.

The subscribers take this method to inform property holders, house-builders, and all others interested, that they still continue the business of Tin Roofing, in all its hranches. Their skill and experience in this part of the business, has hitherto enabled them to give entire satisfaction. And they hope, that by continuing the same policy of using the best materials, and employing skillful workmen, to keep up this favorable impression. If the question of Tin Roofing was new, or just brought before the notice of this community for the first time, we would consider that the importance of the subject would justify us in extending our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the 6th day of June, 1844, (nearly seven years ago.) we finished our first job of Tin Roofing in this place. From that up to the present time, we have covered with tin the roofs of the finest and most costly buildings that have been erected in this county. We have given our views on a previous occasion on the superior advantage of Tin over iron, as a covering for houses. And time, the great tester of all things, has but too clearly proven the correctness of our opinion. To the Citizens of Allegheny City.

J. GARDINER COFFIN, Agent, mar2]

Office N. E. corner Wood and 3d sts of Tin over iron, as a covering for houses. And time, the great tester of all things, has but too clearly proven the correctness of our opinion.

Again, if we place Tin in juxta-position, with Slate as a covering for houses, we think that tin will bear a favorable comparison, with some decided advantages.—These advantages are, that when this used the roof can be made much flatter—thereby saving materials, in the length of rafters, brick in the gable ends—making the house easy of access in case of a fire, and showing a better finish and appearance. Also, when tin is used the guiters are worked in, thereby saving the extra and reavy expense for copper gutters, copper flashings, &c.,—things indispensible on slate roofs. If further reasons were deemed necessary, we could offer the experience of our eastern cities in proof what has been advanced, as it is a well known fact that New York and othereastern cities very generally prefer even tin for heir most costly and splendid buildings, notwithstanding they have a full supply of slate at their doors. With these remarks we will leave the subject with those interested, and will take pleasure in giving further information when called on.
