LOCAL MATTERS.

THE TOTEM.—The second volume of this valuable paper devoted to the interests of *Odd Fellowship*, and edited by H. B. Russell, Esq., will begin in May next, when it will be greatly enlarged and otherwise improved. As the organ of a large and respectable fraternity, it has been conducted with a fairness and an ability at which the most captious could not cavil. Besides it is a most excellent family paper, and we not only hope to see every member of the Order giving it that good support which it so richly merits, but must cheerfully recommend it to others, who desire choice reading for themselves and their children.

A prospectus for the second volume has been issued, and we wish his efforts may be amply rewarded by a large subscription list.

WATER WASTE.—We are requested to state that the Ordinance relative to the waste of water is still neglected, and that the Hydrants on the Hill are permitted to run as heretofore, without the slightest disposition to be economical or prudent with an article of such great cost to the City. It is to be hoped that some of the persons so acting will be made an example of, which will have a tendency to make others more cautious.

FIXED.—John Little and Daniel Towle, were yesterday morning fined $10 each, for breaking open the door of Mrs. Lopper, in the 7th ward, on Saturday night, and disturbing the slumbers of Henry Lain, by cracking him over the head with a poker. Lain was also fined $2.

COCK FIGHTING.—Ephraim Jones brought suit before the Mayor on Saturday against Rodger Jefferies, for taking twelve game chickens. There were several witnesses who testified in the case, and Mr. Jefferies was held over in the sum of $100.

☞ The weather on Saturday was very disagreeable, and during the afternoon we had quite a snow storm. But yesterday morning, the sun shone out clear and strong, and the day was altogether delightful in comparison with the one previous.

TAVERN LICENSES.—Those wishing to obtain licenses at the next term of the Quarter Sessions, had better hand them in immediately for publication, as there is barely time for the required number of insertions previous to the sitting of the Court.

BALL AND POWDER.—To-day the case of Sheriff Curtis *vs.* the Commonwealth, for expenses incurred by him in calling out the military for the suppression of the riots here some time since, will come up before the District Court.

WAR.—The Buckeye State left our Wharf yesterday with a detachment of fifty Soldiers, bound for Oregon, which, we understand, will be followed in a few days by a similar number for the same destination.

LITHOGRAPHIC.—Messrs. Wegner & Buechner have taken into partnership H. G. Mueller, formerly editor of the "West Pennsylvania Staats Zeitung," and they are now prepared to execute everything in their line. See advertisement.

LOOK TO YOUR HALLS.—There has been quite a brisk business driving for some time past in purloining coats, etc., from the halls of different residences in the city. A colored man on Saturday went into 317 Penn street, and escaped with an overcoat which was hanging in the hall.

TEMPERANCE LECTURE.—R. M. Riddle, Esq. of the *Commercial Journal*, will deliver a lecture on Temperance this evening in the THIRD PRESBYTERIAN CHURCH.

EXPIRED.—The term of Hon. Judge Kerr, as associate Judge of the Common Pleas and Quarter Sessions, expired on Friday.

ODD FELLOWS' BALL.—There will be an Odd Fellows' Ball at Freeport on Wednesday evening next, on the occasion of opening a new Hall there.

NO MISTAKE.—The water was certainly let in the canal yesterday, and it is now complete clear through.

THE DRAMA.—The Theatrical corps departed yesterday for the city of Wheeling, where they intend remaining a few weeks.

POLICE.—The Mayor, on Saturday, had eight ordinary cases before him, and on Sunday ten. A considerable business for two days.

☞ The Police have been raising quite a muss among the Draymen for not taking out their licenses in time. Delay is dangerous.

DECLINED.—The chief justiceship of Utah Territory, we understand, has been offered to a lawyer in this city. He declines its acceptance.

☞ There are quite a number of rafts daily passing our City for ports below.

☞ In nine days the Mayor has had before him and passed upon seventy cases.

Daily Review of the Markets.

OFFICE OF THE MORNING POST,

The weather on Saturday was very disagreeable for out door business. In the afternoon we were visited with a tremendous snow storm, which continued throughout the whole afternoon, and entirely checked all kinds of business.

LATER FROM CALIFORNIA.

ARRIVAL OF THE EMPIRE CITY.

NEW YORK, March 8.

The Empire City from Chagres, arrived today, bringing later news from California.

We learn from the Pacific News that the Legislature is rapidly and judiciously framing appropriate laws for the internal government of the State.

The canvass for United States Senator is as exciting as ever. The Democrats have four or five candidates in the field, and their opponents but one.

The Miners are prosecuting their work more successfully than for some time past. As soon as the products come into market, a great revival in business may be looked for.

President Fillmore's Message was well received, with the exception of the proposition to divide and sell the mineral lands, which is decidedly opposed, both in and out of the Legislature.

CHARGES AGAINST MR. WEBSTER.

BOSTON, March 8.

The Journal of this morning publishes an authorized statement from Messrs. Greely and Otis, relative to the charges against Mr. Webster. It is to the effect, that the conversation between them in July last, related entirely to the rumor relative to the formation of the Cabinet, and that Mr. Webster was to be Secretary of State.

Mr. Otis believes that Mr. Greely said to Mr. Haven, in addition to stating that Mr Webster had been in office, that Mr. Webster had hesitated, from the pecuniary sacrifices he would have to make; and he said he had written to Mr. Webster, urging him to accept the place.

Mr. Greely has no recollection of this, as coming from Mr. Havens.

THE MEDICAL COLLEGE.

PHILADELPHIA, March 8.

The annual commencement of the Jefferson Medical College was held to-day at the Musical Fund Hall. The exhibition was attended by the largest and most brilliant audience of the season.

The exercises, which were unusually interesting, were varied by the choicest music from a full and efficient orchestra. They were commenced with a solemn and efficient prayer, by Rev. Dr. Ely.

The Hon. Edward King, President of the College, then conferred the degree of M. D. upon 227 young gentlemen.

The class which received the Diploma of Jefferson to-day, is the largest that ever graduated at one session by any medical school in the United States.

WASHINGTON, March 8.

The Senate, in executive session, yesterday, ratified the treaties lately negotiated with Portugal, Switzerland, and with Mexico respecting the Tehuantepec route from the Gulf to the Pacific.

The treaty of extradition with Mexico was rejected.

WONDERFUL CURES!!

Dr. Rogers' Syrup of Liverwort and Tar
AND
CANCHALAGUA!

For the complete cure of Coughs, Colds, Influenza, Asthma, Bronchitis, Spitting of Blood, and all other Lung Complaints tending to CONSUMPTION.

This syrup contains no Opium, Calomel, or any mineral whatever, but is composed entirely of those Roots, Herbs, and vegetable substances which have a specific influence upon the Lungs, and their connected organs. Its *immediate effect* is to allay all irritation, and gently remove the pilgrim and other morbid secretions from the Throat and Air-Passages; thus relieving the Cough, by *subduing the inflammation* and other causes which give rise to it. It also stimulates and imparts a healthy tone to the Lungs themselves, thereby enabling them more thoroughly to remove from the blood those impurities which, if retained, do so much and diseased particles, and lay the foundation for incurable CONSUMPTION. It also exerts a decided action upon the skin, and assists nature in expelling, through the Exhalents, much of that morbid matter which would otherwise be thrown back upon the Lungs, thus relieving them of a part of their work, and rendering the system more susceptible to the healthy influence of medicine. When tubercles are forming, it checks pure and healthy. When tubercles are forming, it checks their development and further progress; or if ulceration has taken place, it assists the Lungs in throwing off the corrupted matter, soothes the irritation, heals the ulcer ated cavities, and restores them again to healthy action. This Medicine, therefore, is not a *palliative* merely, which only relieves for the time being, but is a *thorough* and permanent cure. It strikes at the very root of the disease, and by removing it, removes at once all its remote and attendant consequences. This is its *distinguishing characteristic*—a property possessed, in equal power, by no other medicine of like nature, now before the public.

CIRCULARS, &c.,

ALBANY, June 9th, 1849.

Messrs. A. L. Scovill & Co.—I herewith forward to you a *Certificate of a Cure*, effected by your Compound Syrup of Liverwort, Tar and Canchalagua. The Cough and *expectoration was of fourteen months standing*, and had the skill of several of our eminent physicians in baffled the skill of several of our eminent physicians in New York, Albany and Cooperstown. I am the person in whom the cure was effected, and as I had previously tried most patent medicines, I have since tried it on my self and others, and have become satisfied of its value. Mine was as great a cure as was ever performed, as I had, during my sickness, been given up *twice by my physicians*. I have now commenced my business, after taking, I think, about *eight bottles*.

Yours, respectfully, THOS. C. FAULDER.

BLEEDING AT THE LUNGS CURED.

SEE HOW PROMPTLY IT ACTS.

Statement of Dr. A. Lane, Baker, No. 338 Pearl street, N. Y.—A few days before last Christmas, I was taken unwell, and soon commenced bleeding freely at the lungs. I called in a Homœopathic physician, but his medicine did not seem to help me. I read your advertisement, and thought I would try *Dr. Rogers' Syrup of Liverwort, Tar and Canchalagua*. Before I had taken *one bottle*, my bleeding had stopped, *my Cough* was gone, and I felt as well as usual. My health is now as good as ever. I consider it a most excellent medicine, and most cheerfully recommend it to my friends. (The *statement* was made in presence of *proprietors*, March 12th, 1850.)

Tin Roofing.

THE subscribers take this method to inform property holders, house-builders, and all others interested, that they will continue the business of Tin Roofing, in all its branches. Their skill and experience in this part of the business has hitherto enabled them to give entire satisfaction. And they hope, that by continuing the same policy of using the best materials, and employing skilful workmen, to keep up this favorable impression. They would refer to the numerous buildings that they have roofed in this county. We have given our best attention on the superior advantage of Tin over iron, as a covering for houses. And time, or Tin over iron, as a covering for houses. And time, the great testifier of all things, has but too clearly proven the correctness of our opinion.

Again, if we place Tin in juxta-position, with Slate as a covering for houses, we think that tin will bear a decided advantage—with some decided advantages.—A reliable comparison, when tin is used the roof can be made much flatter—thereby saving materials, in the length of rafters, brick in the gable ends—making the house easier of access in case of a fire, and showing a better finish and appearance. Also, when tin is used the gutters are worked in, thereby saving the extra and heavy expense of copper gutters, copper flashings, &c., things indispensable on slate roofs. We could offer the experience of numerous cities in proof what has been advanced, as it is a well known fact that New York and other eastern cities very generally prefer even tin for their most expensive and splendid buildings, notwithstanding their convenience to quarries of slate at their doors. With these remarks, a full supply of slate at their doors. With these remarks, a full supply of slate at their doors. With these remarks, and we will leave the subject with those interested, and will be pleased to receive information or orders at any time, and will be pleased to receive information or orders at any time, and will be pleased to receive information or orders at any time
