We are happy to learn that Capt. H. has been successful in the object of his visit to the " land of Ophir," having accumulated some \$25,000 during his absence. He gives a glowing account of California, and appears to be better satisfied with the country than most of those who have returned. He brings home a great many specimens of lum gold, dust and quartz. One lump which he exhibited to us weighs 5 oz., and is worth about \$100. It was dug out by the Captain on Natoma, or " Mormon Island," on the South Fork of American river about 25 miles from Sacramento City. Capt. HART informs us that he has discovered new method of separating the particles of gold from the quartz rock, for which he has applied for a patent since his return. From what he has told us, his discovery will supersede machinery and all other methods of obtaining gold from the rock. that Col.
