Cough and Disease of fourteen months standing Circal After being given up twice by eminent Physicians!

Mestrs. A. L. Scovill & Co.—I herewith forward to you a Certificate of a Cure, effected by your Compound Syrup of Liverwort, Tar and Canchalegua. The Cough and expetionation was of fourteen months standing, and had baffled the skill of several of our eminent physicians in New York, Albany and Cooperstown. I am the person in whom the cure was effected, and as I had previously no faith in patent medicines, I have since tried it on others, and have become satisfied of its value. Mine was as great a cure as was ever performed, as I had during my sickness, been given up trace by my physicans.

Before I had taken up the third bottle, my bleeding had stopped, my Cough was gone, and I felt as well as usual. My health is now good. I consider it a most excellent medicine, and cordially recommend it to my friends. [This statement was made to the Proprietors, March 12th, 1850.]

J. D. Park-Durs Sir: I take the liberty of advising you of the benefit that I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was prostrated by that terrible scourge, Consumption, in May last. The attack was truly hornifying to me, for five of my family, (my brothers and sisters,) had died of Consumption. I was afflicted with acarly all of the worst features of the disease. J. D. Park-Dar Sir. As I have a deep commissoration for the afflicted, permit me to give you a brief history of my afflictions, and the benefits derived from the use of 'Dr. Wistar's Balsam of Wild Cherry. In July, 1844, I was attacked with a fever of a typhoid character, which left, me in a very debilitated state, when in the following winter I was taken with a severe cold, which reduced me to such an extent as to give me the appearance of a confirmed consumptive. I labored under a severe cough, expectorated a great deal, and was troubled with cold feet and night sweats. I also frequently raised blood from my lungs. I continued in this state, gradually suking under the disease, until January, 1847, until I was again attacked with fever. My extremities, especially my feet, were constantly cold, and almost truly said that I was a living akteitom.
