The evidence in favor of this medicine in our city, from our own cilizens, should convince any one of its efficacy. CONSUMPTION—A lady from Steubenville writes, that her daughter had been afflicted with a Cough and expectoration, night sweats, heetic fever, and all the distressing symptoms of consumption, and that after tasking two bottles she was ontirely cured. A gentleman in Washington county, who had suffered with Astimus and Chronic Cough for eight years, has been entirely relieved and the cough removed by the use of half a dozen of bottlesof the Pectoral Syrup. Its great powers to heal, have, since then, become fully appreciated by the commonity, and we allege that the longer it is tried the more certain will its great fame spread. It is not the remedy of a day, got up for the sole purpose of making money; but, one, which we conceive will continue to be used when all by a power and agency that langle to scorn all he competition. It is our duty, when we write a medicine, that we write the trum—that we ray mealculated to deceive those who may trust our we neighborhood, bear ample testimony in tavor or and retroleum.

PEPSINI
THE TRUE DIGESTIVE FLUID; Or Gastric Juice!
A CREAT DYSPEPSIA CURER, A CREAT DYSPEPSIA CURER,

DREPARED from Rennet, or the fourth stomach of the Ox, after directions by Baron Lakens, the great Physiological Chemist, by J. S. HOUGHTON, M.D., No. 11, North Eighth street, Philadelphia, Pa.

This is a truly wonderful remedy for INDIGESTION, DYSPEPSIA, J.IUNDICE, CONSTIPATION, LIVER COMPLAINT, and DEBILLTY, caring Jairer Nature's own method, by Nature's own agent, the Gastric Juice. Half a teaspoonful of this Fluid, infused in water, will digest or dissolve Five Powns or Roast Breef in About two hours, out of the stomach. SCIENTIFIC EVIDENCE! SCIENTIFIC EVIDENCE!

Baron Lizzio, in blacelebrated work on Animat Chem istry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the call, in which various articles of food, as meat and eggs, will be so somened, changed and digested, just in the same manner us they would be in the human stomach."

PERRIER, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Peteirn.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due Periera.

Dr. Comb, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juteets a prominent and all-prevailing cause of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Jutee, obtained from the stomach of living animals, which proved completely successful."

Dr. Gaanam, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomach of animals, macerated in water, impart to the fluid the property of dissolving various atticles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1846, pp 321-2) says: "The discovery of PEPSIN forma new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunotison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. Philosophy of Brandreth's Vegetable Pills.

When the theory of the circulation of the blood was established, the secret springs of vitality were then partially exposed to our view. We saw and understood that the food we cat, was converted into blood, which repaired the waste of the animal narchine the food is fuel, which keeps at a life heat the internal fires that warm and invigorate our inner man. The blood is an electric fluid which carries this heat to every ramification of the body, even to the extremities of the hair and horny nail. While the blood is thus the seat of life, it is also the seat of disease. Food gives the body strength; Brandreth's pills give blood the necessary power to throw out from itself all impurities, thus reneared the stream of life pure and healty. If men were more sincere, there would be fewer religious creeds; and if they kept close to adure's laws in the management of their bodies, thoy would require little medicine. As men grow intelliligent they will become wiser and happier; even now, their wisdom is proved by the fact that, when sickness assails them, they use Brandrath's Vegetable Universal Pills, which soon restore them to health. They are peculiarly adapted to the climate, and require noextra care when they are used, in other diet or clothing. They should be always in the house, so that upon the first indication of sickness they may boused. One dose in the beginning is more potent for good, than a dozen after the sickness is fixed in the system. In colids, coughs, asthma, theumalism, costiveness, fevers, and in all acute, heavy or deep-scated pains, their effects will be found beyond all praise. Three or five will act like a charm, often curing a dangerous malady at once, saving months of sickness and the evils thereunto attending. Remember, Brandreth's Pills are a known and utilty tested medicine, one that is used by hundreds of thousands in this country and throughout the civilized wolfd. They are quietl nent.

It is a great NERVOUS ANTIDOTE, and particularly useful for tendency to bilious disorder, Liver Couplaint, Fever and Ague, or badly treated Fever and Ague, and the ovil effects of Quinine, Mercury, and other drugs upon the Digestive organs, after a long sickness. Also, for excess in cating, and the too free use of ardent spirits. It also reconclies Health with distemperance.

A single doss removes althe unpleasant symptoms, and it only needs to be repeated, for a short time, to make these good effects permanent. PURITY OF BLOOD and VIGOR OF BODY, follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

With a large surplus of profits. A portion of both capital and surplus invested in U-S. Government. Stocks, and other securities in the City of New York. Policies held in this country over 6,000. Persons insuring participate in the profits of the Company. California risks taken at reduced rates.

Amount this naturalized of a Policy in this Campany. A party may, at a moderate annual premium; Insurs for life, and he survive to reach the age of 60 years, the full sum insured up to \$15,000, will be paid to him: or it he dies before reaching that age, the full sum insured will be paid to his family or legal representatives.

It has become customary in the Atlantic cities for congregations to insure the lives of their Pastors; and on Christmas or New Year's day to make the family a present of the policy. This is certainly an excellent way of showing their regard for their Allinister, whose salary in very many cases is scarcely equal to his immediate wants. To the man of family, at his death, it is a consolation beyond expression to know that his helpless little ones are thus provided for.

Churches involved, would do well to insure the lives of one or more of the trustees, at whose demise the amount would be applied to liquidate the debt.
