Tin Roofing.

The Roofing.

The Subscribers take this method to inform property. holders, house-builders, and all others interested, that they still continue the business of Tin Roofing, in all its branches. Their skill and experience in this part of the business. As he hitherto enabled them to give entire satisfaction. And they hope; that by continuing the same policy of using the best materials, and employing skillful workmen, to keep up this favorable impression. If the question of Tin Roofing was new; or last brought before the notice of this community for the first time, we would consider that the importance of the subject would justify us in extending our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the 6th day of June, 1844, (nearly seven years ago) we finished our first job of Tin Roofing in this place. From that up to the present time, we have covered with in the roofs of the finest and most costly buildings that have, been erected in this county. We have giver, our views on a previous occasion on the superior advantage of Tin over iron, as a covering for houses. And time, the great tester of all things, has but too clearly proven the correctness of our opinion.

Again, if we place Tin in juxta-position with Slate ns a covering for houses, we think that tin will bear a favorable comparison, with some decided advantages.—These advantages are, that when this used the roof can be made much flatter—thereby saving materials, in, the length of rafters, brick in the gable ends—making the house easy of access in case of a fire, and showing a better finish and appearance. Also, when tin is used the gutters are worked in, thereby saving the extra and reavy expense for copper gutters, copper flashings, &c.,—things indispensible on slate roofs. If further reasons were deemed necessary, we could offer the experience of our castern cities ver Bettle. A humorous Novel—by George Seaworthy.

The demand for it is so great that he can scarcely keep himself supplied with it. He has had in his store medicines for lung affections. Some of these were exteemed good and some gave temporary relief.—But since he has had Wistar's Balsam of Wild Cherry a number of the most serious cases were completely cured by its use, "I never sold a medicine," says the doctor, "in which I had that entire confidence that I hadig this." B. FLANIGAN, Admix. Fletcher of Ky., passed through this city yesterday, en route to that country. Jones' Lily White. Police.-His Honor had nine customers before ADIES are cautioned against using common prepared Chalk.

They are not aware how frightfully injurious it is to the skin! how coaree, how rough, how sallow, yellow and unhealthy the skin appears after using prepared Chalk!

Besides, it is injurious, containable article, which we call JONES' SPANISH LILY WHITE.

It is perfectly innocent, being parified of all deleterious qualities; and it imparts to the skin a natural, leasthy, alabaster, clean, living white; at the same time acting as cosmetic on the skin, making it soft and smooth. Sold by the Agent, WM JACKSON, SP Liberty street, head of Wood, Pittsburgh. Price 25 cents.
