We have to report on the whole, a steady and quiet month in the Stock and Money market. The ministerial crisis, which commenced on Friday, the 21st February inst., has of course materially disasturbed the previous state of things. In France the state of parties appears tolbe much more settled; and the aspect of foreign politics generally is favorable. Our own foreign exchanges are gradually recovering themselves, and, throughout the month, the supply of capital has been quite equal to the ordinary requirements of the market. On each court day (Thursday) at the Back of England, there have been strong rumors on the Stock Exchange of the intention of the Directors to again raise the rate of interest, but so far, these statements have not been falfilled. Out of doors the rates of discount is about 3 p cent. p annum for good mercantile is about 3 p cent. p annum for good mercantile bills, but with a shyness of long paper. The brokers give 2½ to 2½ for money at call, and, in some quarters, an anticipation prevsils that the notes will be higher before the April dividends.

Besides, it is injurious, containing alargo quantity of Lead!

We have prepared a beautiful vegetable article, which we call JONES' SPANISH LILY WHITE.

costly and splendid buildings, notwithstanding they have
a full supply of slate at their doors. With these remarks
we will leave the subject with those interested, and will
take pleasure in giving further information when called
