My purchases having been all made early, I have therefore avoided the late advances made in almost all descriptions of Woollen Goods, and an therefore enabled to offer my stock at unusually low prices.

I have this season paid more than usual attention to the manufacturing and style of my garments, so that the very lowest priced as well as the linest are got up in a style and elegance not to be surphissed. Bundreds of new customers, both wholesale and retail, have been attracted as much by the superior make of the clothing as by the lowness of my prices.

The proprietor would particularly call the attention of all dealers in Clothing to its present stock, believing that upon examination of the quality and prices of his Goods they will be induced to purchase ut his establishment. The wholesale room now contains upwards of 2,000 garments, from the finest in quality to the lowest in price.

PETROLEUM OR ROCK OIL;

It is not more than one year ago since this great remeded of years brought before the public, for the relief and cure of disease. Its great powers to heal, have, since then, become fully appreciated by the community, and we allege that the longer it is tried the more certain will its great fame spread. It is not the remedy of a day, got up for the sole purpose of making money; but, one which we conceive, will continue to be used when all nostrums have been forgouen. The PETROLEUM is a Natural Remedy, elaborated in the depths of the earth by a power and agency that laughs to scorn all human competition. It is our duty, when we write about a medicine; that we, write raurin—that we say nothing enlustrated to deceive those who may trust our word or put confidence in our sattements. The sick are very apt to catch at any thing that promises relief from disease. A story can hardiv be too highly wrought to miswer the object of guiling or humbugging some of them. Now, we do not desire to do this; we sre anxious only that the trath in relation to our Remedy should be told, in order to secure for it a reputation far exceeding any single article of the materia medica. Plain, unwrinished facts—facts that may be ascertained in our own city and neighborhood, bear ample testimony in favor of the Petroteum.

Among the advantages of a Policy, in this Company are the following.

A party insured for the whole term of life may at any time borrow one-half the amount of annual premium without note or security, or deposit of policy, and is entitled to division of profits.

He may at any time sorrender his policy, and receive back as value thereof one-half the gross sum paid by him in annual common premiums.

A party already insured for whole life may, on pay meni of a small sum, convert his insurance into a new policy upon the loan system now introduced.

Furties already insured and entitled to a two-third loan, are not shat out from said two-third loan, if the prefer it, upon the terms stated in the Society's pample lets.

A party may, at a moderate annual premium, insure for life, and he survive to reach the age of 60 years, the full man insured up to \$15,000, mil be print to HIM: or led dies before reaching that age, the full sum insured will be paid to his family or legal representatives.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a dimination of the due quantity of the Gastrie Juiceis a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastrie Juice, obtained from the stomach of living animals, which proved completely snecessful."

Dr. Grahms, anthor of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, maccrated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Philosophy of the circulation of the blood

was established, the secret springs of vitality
were then partially exposed to our view. We saw and
understood that the food we cat, was converted into
blood, which repaired the waste of the animal machine
the food is fuel, which keeps at a life heat the internal
fires that warm and invigorate our inner man. The
blood is an electric fluid which carries this heat to every
ramification of the body, even to the extremities of the
hair and horny nail. While the blood is thus the seat of
life, it is also the seat of disease. Food gives the body
strength; Brandreth's pills give blood the necessary
power to throw out from itself all impurities, thus rendering the stream of life pure and healthy. If men were
more sincere, there would be fewer religious croeds;
and if they kept close to nature's laws is the management
of their bodies, they would require little medicine. As
men grow inteliligent they will become wiser and happier; even now, their wisdom is proved by the fact that,
when sickness assails them, they use Brandreth's Vegetable Univeral Pills, which soon restore them to health.
They are peculiarly adapted to the climate, and require
moextra care when they are used, in either diet or clothing. They should be always in the house, so that upon
the first indication of sickness they may be used. One
dose in the beginning is more potent for good, than a
dozen ander the sickness is fixed in the system. In colds,
coughs, asthma, rheumatism, cosiveness, fevers, and in
all acute, heavy or deep-sented pains, their effects will
be found beyond all praise. Three or five will act like
a charm, often carring a dangerous malady at once, saving months of sickness and pain, leaving strength and
fally tested medicine, one that is used by hundreds of
thousands in this country and throughout the civilized
world. They are quietly superseding all other medidines. They take out only that from the blood which is
the cause of weakness and pain, page 151 Liberty street.
