Warwick Woodlands; by Frank Forester— HE Proprietor of the Morning Post and Mercont, id the patrons of these peaces, that he has a large as briment of JOB TYPE AND ALL OTHER MATERIAL cessary to a Job Printing Office, and that he is pre-tred to execute TT HAS AN ENTIRELY NEW ACTION—The old Cough Medicines always sicken the stomach and produce nauses which is more disagreeable than the Cough itself. This is obviated in this mixture, for it is a pleasant soothing article and it will cure, or the money will be refunded? The evidence in favor of this medicine in our city, from our own citizens, should convince any one of its efficacy. It is the prescription of a regular physician, and has been used by him in his own practice for a number of years, with the most heroic success. CONSUMITION—A lady from Steubenville swrites that her daughter had been afflicted with a Cough and expectoration, night sweats, hectic fover, and all the distressing symptoms of consumption, and that after taking two bottles she was entirely cured. A gentleman in Washington county, who had suffered with Ashma and Chronic Cough for eight years, has been entirely relieved and the cough removed by the use of half a divacol of buttles of the Pectoral Syrup. A gentleman from Peoria, Illinois, writes that "he know the Pectoral Syrup to be a good article, for he has used it in his own pared to execute

[nov15:1] Bookseller and Stationer, corner Market and Third streets a Natural Remedy, elaborated in the depths of the earth by a power and agency that ladghs to scorn all human competition. It is our duty, when we write about a medicine, that we write ravur—that we say nothing calculated to deceive those who may trust our word or put confidence in our statements. The sick are very spit to catch at any thing that promises relief from disease. A story can hardly be too highly wraught to answer the object of gulling or humbugging some of them. Now, we do not desire to do this; we are anxious only that the truth in relation to our Remedy should be told in order to secure for it are putstion far exceeding any single article of the stater a medica. Nos. 62 and 64 Market street. OF Gastrie Juleo:

A CREAT DYSPEPSIA CURER,

DREPARED from Rennet, or the fourth stomach of the Ox, after directions by Baron Lirsua, the great Physiological Chemist, by J. S. HOUGHTON, M.D., No. 11, North Eighth street, Philadelphia, Pa.

This is a truly wonderful remetaly for INDIG ESTION, DYSPEPSIA, JAUNDICE, CONSTIPATION, LIYER COMPLAINT; and DEBILIT; curing after Nature's own method, by Nature's own agent, the Gastrie Juleo. Half a teaspoonfull of this Fluid, infused in water, will digest or dissolve Five Pourss or Roast Berr in About two Hours, out of the stomach.

SCIENTIFIC EVIDENCE!

Baron Lieben, in his celebrated work on Animal Chem istry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the calf, in which various articles of food, as meat snd eggs, will be so softened, changed and digested, just in the same manner as they would be in the human stomach."

Dr. PERRIEA, in his famous treatise on "Food and Diet," published by Fowlers & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Perlin.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Castrie Juleo is a prominent and all-prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything class to fall, had recourse to the Gastrie Juleo, to blained from the stomach of living animals, which proved completely successful."

Dr. Granzas, author of the famous works on "Vegetable Dist," says: "It is a remarkable fact in physiology, that the stomachs of living animals, which proved completely successful."

Dr. Granzas, author of the famous works on "Vegetable Dist," says: "It is a remarkable fact in physiology, that the stomach of lefecting a kind of artificial digestion of them in no wise different from the n Or Gastric Juice!

The Roofing.

The subscribers take this method to inform property the holders, house-builders, and all others interested, that they still continue the business of Tin Roofing, and that they still continue the business of Tin Roofing, in all the branches. Their skill and experience in this part of the business, has hitherto enabled them to give entire satisfaction. And they, hope, that by contanuing the same policy of using the best materials, and employing skillful workmen, to keep up this favorable impression. If the question of Tin Roofing was new, or just brought before the notice of this community for the first time, we would consider that the importance of the subject would justify us in extending our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to defew remarks: On the 6th day of June, 1844, (nearly seven years ago,) we finished our first job of Tin Roofing in this place. From that up to the present time, we have covered with the the roofs of the finest and most costly, buildings that have been erected in this county. We have given our views on a previous occasion on the superior advantages of Tin over iron, as a covering for houses. And time, the great tester of all things, has but too clearly proven the correctness of our opinion.

Again, if we place Tin in juxta-position, with Sinte as a covering for house, we think that itn will bear a favorable comparison, with some decided advantages. These advantages are, that when this is used the roof can be made much flatter—thereby saving materials, in the length of raflers, brick in the gable enda—making the house ensy of access in case of a fire, and showing a better finish and appearance. Also, when the is used the roof can be made much flatter—thereby saving materials, in the length of raflers, brick in the gable enda—making the house ensy of access in case of a fire, and showing a better finish and appearance. Also, when the is a stis a well known fact The first class of the Law and Medical Departments of this Institute were small, but the gentlemen composing them are talented and in the highest degree respectable—a favorable amea for the future prosperity of the Institute. That the public may be satisfied of the permanency of this school, we feel it our duty to state, that the Trustees and Faculty form a wait in action, which angurs well for its future success; and that the peculiar internal organization which connects them, cannot be interupted.

No. 61 Water st. part to the finid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Dr. Shon's great work, the "Chemistry of Man," (Len & Bianchard, Phila., 1846, pp. 321-2) says: "The discovery of PEPSIN forms a new ers in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive finid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Professor Dunalison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

AS A DYSPEPSIA CURER,
Dr. Hovghron's preparation of PEPSIN has produced the most marvelous effects, curing cases of Debility, Emnciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the very verge of the grave. It is impossible to give the dutaits of cases in the limits of this advertisement—but authenticated certificates have been given of more than TWO HUNDREIN REMARKABLE CURES, in Philadelphia, New York, and Boston, alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but permanent.

It is a great NERVOUS ANTIDOTE, and particularly useful for tendency to hillious disorder, Liver Complaint, Fover and Ague, or hadly treated Fever and Ague, and the owil effects of Quinine, Mercury, and other drags upon the Digestive organs, after a long sickness. Also, for excess in cating, and the too free use of ardent spirits. It also reconciles Health with Intemperance.
