BRANCH OFFICE of Smithinklo St. Firstween.

"HE best evidence of the success of the Directors in
endeavoring to make the "STATE MUTUAL FIRE
INSURANCE COMPANY" meet the wants of the
community. Is the unparalicled amount of business
which has been done—having issued nearly \$000 Poil
cies in a little more than seven months; and stiding
over \$70,000 capital to the company. The Directors are
proud to say, that nearly all the 'proporty insured is of
the safest kind, in anall, risks, and a large proportion
insured for only one year.

Amount of guarantee premiums \$46,99 38

Amount of guarantee premiums \$46,99 38

Amount of guarantee stock \$70,188 18

Amount of losses \$3,00 00

To be deducted from the ablove the incidental expenses of the office.

To city or country merchants; and owners of dwellings, and isolated or country property, it is believed
this company affords advantages in point of cheapfass,
eafety and security, inferior to no Insurance Company
to this country.

Conducted on the equitable and greatly improved system of Classification of Risks; excluding all 'special
harards, insuring only a limited amount in any one locality, thus precluding the frequency and occurrence of
large fires, and also, on both the Stock and Mutual plan,
it not only possesses the cheapiers and accommodation
of both methods, but entitles the insured to a participation in the could be a successive to the property in the service. BOOK AND JOB PRINTING. NEW SPRING GOODS!

IT HAS AN ENTIRELY NEW ACTION—The old ough Medicines always sicken the stomach and pro-uce nausen which is more disagreeable than the Cough iself. This is obvirted in this mixture, for it is a pleasitself. This is obviated in this mixture, for it is a pleasant southing article and it will cure, or the money will be fifunded. The evidence in fayor of this medicine in our city, from our own citizens, should convince any one of its efficacy. It is the prescription of a regular physician, and has been used by him in his own practice for a number of years, with the most heroic success.

CONSUMPTION—A lady from Steubenville writes, that her daughter had been afflicted with a Coagh and expenjoration, night sweats, hectic fever, and all the distressing symptoms of consumption, and that after taking two bottles she was entirely cured. A gentleman in Washington county, who had suffered with Ashma and Chronic Cough for eight years, has been entirely relieved and the cough removed by the use of half a dozen of bottless the Pectoral Syrup. A gentleman from Peorie, Illinois, writes that "he knows the Pectoral Syrup to be a good article, for he has used it in his own case and in the cases of members of his family with the most perfect success. THE SUBSRIBERS have spened a Gentlemen's Furnishing Store, in connection with an Odd Fellow's Depot, in which are to be found a variety of Fancy Goods and Odd Fellow's Regalia, never before presented to a Plusburgh public, by a single establishment. From Philadelphis, they are in regular receipt of Odd Fellows' Registers; Lodge Blank Books, Gavets, and other Lodge articles. The Regalia exhibited at their counter is most gorgeous and admirably assorted; nothing of the sort, so entirely exquisite, has ever been seen in this market in such profusion.

The Gentlemen's Furnishing Department is plentifully supplied with a variety of superb and delicately wrought articles of dress. The variety is entirely too great to enumerate in a moderate space; we must, therefore, direct the public to an investigation of the Stock itself. All that we can say in this connection is, that at our Establishment the gentlemen of tuste can be supplied with any article in our line, manufactured out of the best materials and by the most experienced hands. We solicit an examination of our stock; it composes a variety which challenges comparison.

A large lot of Fine Silk and Lines Shiru; Fancy Stocks and self adjusting Cravats, Glores and Hesiery of various kinds, and in fact every article of comfort or luxury which a gentlemen of good taste would fancy.

Baron Lieno, in his celebrated work on Animal Chem istry, says: "An artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the macous membrane of the stomach or the call, in which various articles of food, as mean and eggs, will be so softened, changed and digested, just in the same manner as they would be in the human stomach."

Br. Perrian, in his famous treatise on "Food and Diet,"published by Fowlers & Wells, New York, page 35, states, the same great fact, and describes the method of preparation. Dr. Conde, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the dag dannity of the Gastric Juice is a prominent and all-prevailing causes of Dyspepsia," and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely enccessful."

Dr. Graham, anuhor of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestice food, and of effecting a kind of artificial digestive process,"

Dr. Simon's great work, the "Chemistry of Man," (Lea & Blanchard, Phila., 1846, pp. 321-2) says: "The discovery of PEPSIN forms a new era in the chemical history of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsia, as it is in the natural Gastric Juice inself."

Professor Downlison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "in all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."
