State Mutrief Fire Insurance Company.
BRANCH OFFICE, 57 SMITHTEND ST., PURDING.
January 14, 1851.

THE best evidence of the success of the Directors in endeavoring to take the "STATE MUTUAL TIRE INSURANCE COMPANY" meet the wants of the community, is the unparalleled amount of busiless which has been done-having issued nearly 4,000-Foil cles in a little more than seven months; and adding over \$70,000 capital to the company. The Directors are proud to say, that nearly all the property insured is of the safest kind, in small risks, and a large proportion insured for only one year.

Number of Policies issued. 3,053
Amount of property insured 3,053
Amount of cashpremiums. \$45,403.88
Amount of cashpremiums. \$45,403.88
Amount of cashpremiums. \$24,631.80
Amount of guarantee stock. \$3,500.00

To be deducted from the above the incidental expenses of the office.

To city or country merchants, and owners of dwellings, and isolated or country property, it is believed this company affords advantages in point of cheapness, rafety and security, inferior to no Insurance Company it this country.

Conducted on the equiliable and greatly improved system of Classification of Risks, excluding all special hazards, insuring only a limited amount in any one locality, thus precluding the frequency and occurreice of large free; and also, on both the Stock and Mutual plan, it not only possesses the cheapness and accommodation of both methods; but entitles the insured to a participation in the profits.

It is under the control of the following Directors:—I. P. Rutherford, A. J. Gilllett, John B. Packer, Samuel T. Jones, Alonzo A. Carrier, Philo C. Sedgwick; Robert M. L. J. Gilllett, John B. Packer, Samuel T. J. Jones, Alonzo A. Carrier, Philo C. Sedgwick; Robert M. L. J. Gilllett, John B. Packer, Samuel T. J. Janes, Alonzo A. Carrier, Philo C. Sedgwick; Robert J. A. RUTHERFORD, Prest.

INCE the introduction of this new compound. Coughs on decids are cared in a very short time. We will warrant Dr. Keyser's Pectoral Syrup to cure cases of Coughs, Colds, Bronchitis, Laigugitts, in less time and at a cheaper rate than any other medicine ever discovered.

IT HAS AN ENTIRELY NEW ACTION—The old Cough Medicines always sicken the stomach and produce nausan which is more disagreeable than the Cough itself. This is obviated in this mixture, for it is a pleasant southing article and it will cure, or the tunery will be seen in a correct of its efficacy. It is the prescription of a regular physician, and has been used by him in his own practice for a number of years, will the most heroic success.

The Gentlemen's Farnishing Department is plentifally supplied with a variety of superb and delicately wrought articles of dress. The variety is entirely too great to enumerate in a moderate space; we must, therefore, direct the public to an investigation of the Stock itself. All that we can say in this cannection is, that at our Establishment the gendemen of tasto can be supplied with any article in our line, manufactured out of the best materials and by the most experienced hands. We solicit an examination of our stock; it composes a variety which challenges comparison.

A large lot of Fine Silk and Linen Shirts; Fancy Stocks and self adjusting Cracats; Glores and Hostery of various kinds, and in fact every article of comfort or luxury which a gentlemen of good taste would fancy.

We solicit a snare of public patronage.

The notice of their Semi-Annual Sale to any one of the thousands who attended the sale of last year, will be sufficient guarantee for a call this season. They will however mention a few of the Goods and Prices, for the benefit of those who have never attended their Sales—vir. T is not more than one year ago since this great remedy was brought before the public, for the relief and cute of disease. Its great powers to heal, have, since then, become fully appreciated by the community, and we allege that the longer it is tried the more certain will its great fame spread. It is not the remedy of a day, got up for the sole purpose of making money; but one, which we conceive, will continue to be used when all nostrams have been forgotten. The PETROLEUM is a Natural Remedy, elaborated in the depths of the earth by a power and agency that laughs to scorn all human competition. It is our duty, when we write about a medicine, that we write TBUTH—that we say nothing calculated to deceive those who may trust our word or put confidence in our statements. The sick are very spi to catch at any thing that promises relief from disease. A story can hardly be too highly wrought to answer the object of gullings or humburging some of them. Now, we do not desire to do this; we are anxious only that the truth in relation to our Remedy should be rold in order to secure for it a reputation far exceeding any single sruicle of the materia medica. Plain, anvarnished facts—facts that may be ascertained in our own city and neighborhood, bear ample testimony in favor of the Petroteom.

ONTuesday afternoon, July 23, 1848, the undersigned were called upon by Messrs. Lappencout & Barr, to witness an honest and fair test of one or their Phamix Safes. The furnace being prepared, the Safe was placed inside thereof, with books, papers and some money; when the door of the Safe was closed and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red bot, and continued till half past 6 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Sates to the public, as being, in our judgment, entirely fire proof.

Whatever others may say about their medicines, the Petroleum is the greatest Remedy of the age. Physicians of high standing in the profession are beginning to use it in their practice. Those who at first looked on with doubt and uncertainty, are willing to award it due praise and consideration. Before another year rolls round, all will be compelled to acknowledge that the Petroleum is the greatest medicine ever discovered.

OF Gastrie Julee!

A OREAT DYSPEPSIA CURER,

PREPARED from Rennet, or the fourth stomach of the Ox, after directions by Baron Liento, the great Physiological Chemist, by J. S. HOUGHTON, M.D., No. 11. North Eighth street, Philadelphia, Pa.

This is a truly wonderfol remedy for INDIGESTION, DYSPEPSIA, JIUNDIGE, CONSTIPATION, LIVER COMPLAINT, and DEBLITT, curing after Nature's own method, by Nature's own agent, the Gastrie Juice. Half a teaspoonful of this Fluid, infused in water, will digest or dissolve Five Pounds of Roast Berg in About Two Hours, out of the stomach.

SCIENTIFIC EVIDENCE!

Baron Litzing, in his colebrated work on Animal Chem istry, says: "An srificial Digestive Fluid, analogous to the Gastrie Juice, may be rendily prepared from the mucons membrane of the stomach of the calf, in which various articles of food, as meat and eggs, will be so softened, changed and digested, just in the same manner as they would be in the human stomach."

Dr. Persted, in his famous treatise on "Food and Diet, "published by Fowlers & Wells, New York, page 35. States the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereirs.

Tin Roofing.

The Subscribers take this method to inform property holders, house-builders, and all others interested, that they still continue the business of Tin Roofing, in all its branches. Their skill and experience in this part of the business, has hithertoenabled them to give entire satisfaction. And they hope, that by continuing the same policy of using the best materials, and employing skillful workmen, to Keep up this favorable impression. If the question of Tin Roofing was new, or just brought before the notice of this community for the first time, we would consider that the importance of the subject would justify us in extending our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the 6th day of June, 1844, (nearly seven years ago.) we finished our first job of Tin Roofing in this place. From that up to the present time, we have covered with tin the ones our few interesting the course of the county. We have given our views on a previous occasion on the superior advantage of Tin over iron, as a covering for houses. And time, the great tester of all things, has but too clearly proven the correctness of our opinion.

Again, if we place finin juxta-position, with Slate as a covering for houses, we think that in will bear a favorable comparison, with some decided advantages. These advantages are, that when this used the roof can be made much flatter—thereby saving interials, in the length of rufters, brick in the gable onds—making the house easy of access in case of a fire, and showing a better finish and appearance. Also, when it is take the guiters are controlled for the experience of our eastern clite county—all of them are here Leurary's and the best of Teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubt as to the eligibility of our situation for an enterprise of the kind. As to health, including all seasons of the year, we dony that any bither city has were.

SALE OF VALUABLE. Dr. PERNIEL, in mis ramous treause on "Food and Blicker, browlers & Wells, New York, page 35, states the same grent fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Cosus, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due gy of Digestion," observes that "a diminution of the due gy of Digestion," observes that a diminution of the due gy of Digestion, observes that a diminution of the due gy of Digestion, before a prominent and all-prevailing cause of Dyspepsia; and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything elec to fall, had recourse to the Gastric Juice, obtained from the stomach of living animals, which proved completely successful."

Dr. Gallem, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology that the stomachs of animals, macerated in water, impart to the flaid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of them in no wise different from the natural digestion of Digestion. From recent experiments we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Castric Juice itself."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this eabject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "disgestion occurred as perfectly in the artificial as in the matural digestions."
