January 14, 1651.

The best evidence of success of the Directors in endeavoring to make "STATE MUTUAL FIRE INSURANCE COMPY" meet the wants of the community, is the ufalleled amount of business which has been done—ing issued nearly 4,000 Policies in a little more a seven months; and adding over \$70,000 capital to company. The Directors are proud to say, that neall the property insured is of the safest kind, in say fisks, and a large proportion insured for only one of Number of Policies hed—3,953 &4,073,508 00 Amount of guarantee minums \$15,400 38 Amount of cash premiss \$24,631,50 70,123 18 Amount of cash premiss \$3,500 00.

To be deducted from above the incidental expenses of the office.

To city or county-premiss, and owners of dwellings, and isolated "country property," it is believed this company afordwantoges in point of cheapness, safety and security fier to to a Insurance Company it this country. Conducted on thiultable and greatly improved system of Classificat. of Risks, excluding all special hazards, insuringly a limited amount in any one locality, thus preciping the frequency and occurrence of lange fires, and month of the Stock and Munual plan, it not only posses the cheappess and accommodation of both method of entitles the insured to a puricipation in the profit (fillest, John B. IT HAS AN ENTIRELY NEW ACTION—The old. Cough Medicines always sicken the stomach and produce naused which is more disagreeable than the Cough itself. This is obviated in this mixture, for it is a please and soothing article and it will cure, or the money will be refunded? The evidence in fayor of this medicine in our city, from our own cluigens, should convince any one of its efficacy. It is the prescription of it regular physician, and has been used by him in his own practice for a number of years, with the most heroic success.

CONSUMPTION—A lady from Stenbenville writes, that her daughter had been afflicted with a Cough and expectoration, night sweats, heetic fever, and all the distressing symptoms of consumption, and that after taking two bottles she was outtrily-cured. A gentleman in Washington county, who had suffered with Ashma and Chronic Cough for eight years, has been entirely relieved and the cough removed by the use of half a dozen of bottles of the Pectoral Syrup to be a good article, for the has used it in his own case and in the cases of members of his family with the most perfect success. THE SUBSCHBERS have spened a Gentlemen's Furnishing Store, in connection with an Odd Fellows',
Dopot, in which are to be found a variety of Fancy
Goods and Odd Fellows' Regalia, never before presented to a Pittsburgh public, by a single establishment.

From Philadelphia, they are in regular receipt of Odd Fellows' Registers, Lodge Blank Books, Garels, and other Lodge articles. The Regalia exhibited at their counter is most gorgeous and admirably assorted; nothing of the sort, so entirely exquisite, has ever been seen in this market in such profusion.

The Gentlemen's Furnishing Department is plentifully supplied with a variety of superb and delicately wrought articles of dress. The variety is entirely too great to enumerate in a moderate space; we must, therefore, direct the public to an investigation of the Stock itself. All that we can say in this connection is, that at our Establishment the gentlemen of taste can be supplied with any article in our line, manufactured out of the best innerials and by the most experienced hands. We solicit an examination of our stock; it composes a variety which challenges comparison.

A large lot of Fine Silk and Linen Shrits; Fancy Stocks and self adjusting Cravats; Gloves and Hostery of various kinds, and in fact every article of comfort or laxury which a gentlemen of good taste would fancy.

We solicit a snare of public parionage.

SAUTERINE and BARSAC always on hand in bottles. His selection of RHINE and MOSELLE WINES, so the control of the color of PETROLEUM OR ROCK OIL; PETROLEUM OR ROCK OIL;
It is not more than one year ago since this great remdedy was brought before the public, for the relief and cure of disease. Its great powers to heal, have, since then, become fully appreciated by the community, and we allege that the longer it is tried the more certain will its great fame spread. It is not the remedy of a day, got up for the sole purpose of making money; but, one, which we conceive, will continue to be used when all nostrums have been forgotten. The PETROLEUM is a Natural Remedy, elaborated in the depths of the earth by a power and agency that laughs to scorn all human competition. It. is our duty, when we write about a medicine, that we write resurn—that we say nothing calculated to deceive those who may trust our word or put confidence in our statements. The sick are very apt to catch at any thing that promises relief from disease. A story can hardly be too highly wrought to answer the object of gulling or humbugging some of them. Now, we do not desire to do this; we are anxious only that the truth in relation to our Remedy should be told, in order to secure for it a reputation far exceeding any single article of the materia medica. Plain, unvarnished facts—facts that may be ascernained in our own city and neighborhood, bear ample testimony in favor of the Petroleum.

It has become customary in the Atlantic cities for congregations to insure the lives of their Pustors, and on Christmas or New Year's day to make the family a present of the policy. This is centainly an excellent way of showing their regard for their Minister, whose salary in very many cases is searcely equal: to his immediate wants. To the man of family, at his death, it is a nonsolation beyond expression to know that his helplass little ones are thus provided for.

Churches involved, would do well to insure the lives of one or more of the trustees, at whose demise the amount would be applied to liquidate the debt.

The Paculties, for intellectual abilities, moral worth and professional acquirements, will compare favorably with the most distinguished in our country. The Medical Faculty constitutes an anomaly in this or any other country—all of them are able Lecturers and the best of Teachers.

Those who will contemplate our geographical position, and the extent of our population, can have no doubtast to the cligibility of our situation for an enterprise of the kind. As to health, including all sensons of the year, we deep that any other city has more.

The first class of the Law and Medical Departments of this school, we feel it our duty to state, that the Tustices and Faculty form a unit in action, which augusts well for its future success; and that the peculiar internal organization which connects them, cannot be interupted.

This Roofing.

This Roofing.

This subscribers take this method to inform property holders, house-builders, and all others interested, that they still continue the business of Tis Roofing, in all its branches. Their skill and experience in this part of the business, has hitherto caubled them to give entire statisfaction. And they hope, that by continuing the same policy of using the best materials, and employing skillful workment to keep up this favorable impression. If the question of Tin Roofing was new, or just brought before the notice of this community for the first time, we would consider that the importance of the subject would justify us in extending, our views on its superior advantages. This, however, is not the case. We shall therefore, confine ourselves to a few remarks. On the 6th day of June, 1844, (nearly seven years ago.) we finished our first job of Tin Roofing in this place. From that up to the present time, we have covered with tin the roots of the finest and most costly buildings that have been erected in this county. We have given our views on a previous occasion on the superior advantage of Tin over Iron, has covering for houses. And time, the great tester of all things, has but too clearly proven the correctness of our opinion.

Again, if we place Tin in juxta-position, with Slate as a covering for houses, we think that tin will hear a favorable: comparison, with 'some decided advantages. These advantages are, that when this is ased the roof can be made much latter—thereby saving materials, in the length of rafters, brick in the gable ends—making the house easy of access in case of a fire, and showing a better finish and appearance. Also, when in it is used the gutters are worked in, thereby saving the extra and heavy expense for copper gutters, copper flashings, &c.—lhings indispensible on slate roots. If further reasons were deemed necessary, we could offer the experience of our eastern cities in proof what has been Boats and Steam Boats, on rivers and lakes, on the most liberal terms.
